# Mr Foot makes public plea for leader to stay on

A public appeal for Mr James Callaghan to stay on as Labour's leader was made yesterday by his deputy, Mr Michael Foot. On the eve of Mr Callaghan's decision day, Mr Foot said he thought his plea would be backed by tens of thousands, maybe even millions, of workers.

# Mr Healey defends rights of PLP

Ey Michael Hatfield Political Reporter

Mr Michael Foot, Deputy Leader of the Labour Party yesterday made public a personal appeal to Mr James Callaghan to stay on as party leader for the time being.

His plea came on the eve of Mr Callaghan's declared intention to inform his Shadow Cabinet colleagues of his decision today. The two of them met on Monday to discuss the situation and the fact that Mr Foot has entered the plea at this late stage could be interpreted in several ways. preted in several ways.

The two favoured at West-minster is that Mr Callaghan has left Mr Foot with the impression that he intends to resign and a last-minute attempt is being made to change his mind, or that alter-natively the party leader is still

Stating that it would be bound if the party's divisions allowed the Government to get away with its economic policies, boilermakers unions at Rothesay, on the Island of Bute: " I ery much hope that Jim allaghan will be prepared to

Mr Foot said that was the ea he had made to Mr llaghan on Monday and he it it was a plea that he backed by tens of usands, maybe even millions, workers up and down the untry. He said Mr Callaghan ad had stacks of letters mak-

ing the same request.

He said: "I understand the pressures and problems he has to face but I hope he will do it. But whatever happens I hope ne as a Labour movement are going to soive our own problems."

# Mr Ivor Richard to take Jenkins vacancy on EEC Commission

Political Editor Brussels, Oct 14

Mr Ivor Richard, QC, the former Labour MP and former British permanent representathe United Nations, is to be Britain's second Commissioner at the EEC.

Mr Richard will fill the vac-ancy being left by Mr Roy Jenkins, who retires from the Commission presidency in January. Which portfolio Mr Richard obtains will be decided by the new Commission next January under the presidency of Mr Gaston Thorn, at present the Luxembourg Foreign Minis-ter. Mr Christopher Tugendhat will then become the senior British Commissioner. He is seen as certain to retain the portfolio for budget and finan-cial control which he has held for his first four-year term. Like Mr Tugendhat, first choice for the post. Mr Joel Barnett, Chief Secretary to the Treasury in the last Labour Government and now chairman of the Commons public accounts committee, rejected the offer.

Dickson Mabon, MP, formerly junior Energy Minister, was also mentioned as a possibility. Mr Richard, aged 48, served at the United Nations until last year. While in New York, he came into prominence by making a speech indirectly re-

buking Mr (now Senator) Daniel Moynihan then the United States Ambassador to the United Nations, Mr Moyni-han had attacked the United

# Prison officers dig in for a long fight as attitudes harden

By Craig Seton

... Britain's 20,000 officers are to intensify their disruption of the prison system and prepare for a "long, hard fight" over the Home Office's refusal to agree to arbitration in a dispute over payment for. meal breaks.

The Prison Officers' Associacion issued its new instructions vesterday as each side appeared to become more unyielding.

The extension of the week-long campaign of industrial action is likely to mean that remanded and convicted prisoners from magistrates' courts will not be accepted at some prisons. Fifteen have already been affected in that way. It is almost certain that an increasing number of police cells will have to be used to fold prisoners and more prisoners might be made late for court appearances. There is also a threat that prison workshops will close and that pri-soners will have to spend more

lime in their cells. Association leaders are due to meet Lord Belstead, Under-Secretary of State at the Home office, tomorrow. It will be the first official contact over the dispute since Mr William Whitelaw, the Home Secretary, refused the arbitration demand. The association said the new action was being taken because of the Home Office's refusal to withdraw a "provocative" document instructing prison

levels and warning prison officers that they could lose pay for refusing to carry out certain

general secretary of the associa-tion, said the Home Office's prison department had refused to replace the document with instructions authorizing gov-ernors to redeploy staff so prisoners could be allowed to spend the usual amount of time out of their cells.

The Prison Department said yesterday that it would not withdraw the document and would be issuing further guidance to governors on its interpretation. It was still the refused to carry out jobs allo-cated to them by the governor would not be paid for work they refused to do.

The department said it had contingency plans to deal with the extension of industrial action, but refused to say what

Mr Rushworth said the new action would produce some adverse effect on prisoners. Local branches of the association would apply action as they saw fit, and there would be a slow-ing down and a disruption of the whole system.

Mr Rushworth said of his members action. "All we want is arbitration. They have said no and from that time the Home Office has got less con-ciliatory. They are being bloody minded."

# Helicopter break-out at Hull jail foiled

soners from Hull top security jail, using helicopters.

It is believed that eight pri-soners were selected for the soners were selected for the break out, which was scheduled for last Saturday. It seems likely that the operation was modelled on the lines of the 1973 prison break in which three prisoners. Seamus Twomey, then chief of staff of the Provisional IRA, Kevin Mailon and J. B. O'Hagan were snatched from the yard of Mountjoy jail, Dublin, in a hisacked helicopter that landed in the prison yard and took the men away.

en away. Huli jail, in Hedon Road, is have boused Provisional IRA prisoners, although no one is sure whether they were the targets of the escape

Since 1976, £1m has been spent on increasing security at the jail. The wall has been painted white, a high wire reainted white, a high wire fence has been installed outside the wall, closed circuit television has been introduced, no cars are allowed to park near the wall and an elaborate system of road blocks has been evolved to seal all roads leaving the system of the constant o

Suspicions of a break-out were first aroused when hell-copters were seen on two different occasions, on one of them by a police officer, circling the prison yard at between 200ft and 250ft. Regulations say that aircraft should fly above 1,500ft and not within 500ft of any building. Inquiries are continuing to try to identify the two helicopters.

The fact that the aircraft

were passing so low over the were ridiculous (prison yard, where prisoners Association reports).

Hull
The Humberside police and
Hull prison authorities have
foiled a plan to snatch prisoners from Hull top security

# Race commission to investigate immigration control abuses despite limited powers

By Lucy Hodges

asmagi tang y ir deep restaining of the state of the simple

ever enaminals

Jr 451 30 5

1g safe

udideter. Value Assoc

The Commission for Racial Equality (CRE) announced resterday that its proposed investigation into the immigration service would go shead since the High Court had ruled in its favour.
It expected the Home Office

entries the Re to cooperate with the inquiry, despite That could be interpreted as an invitation by Mr justice Woolf in yesterday's judgment, to the Home Office not to do so Immigration experts warmly welcomed the High Court decision and said in was an important victory for

Mr Ian Martin, general sec-retary of the Joint Council for the Welfare of Immigrants, saidit was disgraceful that the Home Office had tried for so long to prevent the commission looking Into immigration

given the go-ahead, the Rome Secretary must ensure the Home Office cooperates in what is a lawful investigation." "Any further foot-dragging by the Home Office will be seen by the immigrant community asfurther admission that this is an area the Home Office does not want to be open to scrutiny."

Mr Peter Moss, of the United Kingdom Immigrants Advisory Service, a government-funded body, said an investigation was vital. "A lot of our problems about immigration control are not about what the laws and rules say, but about how they are carried out", he said. In his judgment yesterday Mr Justice Woolf said the CRE could inquire into immigration control under its duty to pro-more good relations, contrary to

tained. But because the commission's power to require people to provide information was so limited, such an investigation might not be worth while. The case between the CRE

and the Home Office goes back to last year, when an Asian woman underwent a gynaecological examination at Heath-row Airport. It has been fuelled by general concern on the part of the commission that Asians from the Indian subcontinent are treated more harshly than other people when entering. this country.

The Home Office said yesterday it was studying the judg-ment, before deciding whether to appeal against it. It has con-sistently maintained that the CRE does not have the power to investigate the immigration

"Important principle": Mr Harvey Proctor, Conservative MP for Basildon, said at a House of Commons dinner last night that Mr Justice Woolf's decision raised an important principle for government (Michael Horsnell writes). He said: "I'do not believe

that the Home Secretary should allow this decision to stand. He must insist that the Home Office appeals against the judgment. The CRE must meanwhile suspend their investiga-"Should the decision not be reversed in the courts the Home Secretary should intro-

# in the Merseyside employers accused of jobs discrimination

Allegations of racial discrimnation were made yesterday against local authorities and large businesses in the Mersey-side area at a public hearing conducted by a special House of Commons, subcommittee.

Mr Syed Safiruddin, secretary of the Afro-Asian Caribbean Standing Committee on Mersey-Standing Committee on Mersey-side was asked by one of the members of the subcommittee, Miss Jo Richardson, Labour MP for Barking: "Why are so few black people employed by the local council?" Mr Saffruddio said: "Liverpool City Council has never admitted that discrim-

ination exists. Nevertheless there is a need for a radical change in the policies of the city council which is the biggest employer in the area.

Several speeches at yesterday's hearing, the second of itskind to be conducted by the race relations and immigration sub-committee of the House of Commons Home Affairs Committee (the first was in Bristol), said that black faces were seldom that plack races were seldom seen among Merseyside local authority workers sock, as bus drivers and conductors, where-as in London ir was white faces that were seen infrequently in

those jobs. Mr Ciovis Rozen, secretary

of the Jamaican Merseyside Association, said in his evidence: "In any big business house in Liverpool you have to look very hard to find a black

Both Mr Safiruddin and Mr Roach claimed that the unemployment rate among black people in Liverpool was of the order of 60 per cent compared with the already disastrously high rate of about 20 per cent

Written evidence submitted by the Merseyside Community Relations Council reminded the subcommittee that Liverpool had had a black population since the slave trading days.

"Yet black Liverpodilans continue to find themselves for the most part blocked at the bottom of the economic hierarchy of the area, constituting a sub-working class more likely to be unemployed, poorly educated and poorly housed than any other sector of the community."

The special, though perhaps less acute, problems of Merseyless acute, problems of Merseyside's Chinese community of
10,000 founded by deserters
from British merchants' ships
at the turn of the century, were
outlined by Mr Brian Wang,
Merseyside Chinese Community
relations officer, who said that
housing rather than unemployment was his greatest concern

of young British search of drugs,

up in 1972. There are now nearly 100 member schools. and some 5,000 applications a year for GAP places.

But the project is still run on a low budger by Mr Willey and a small staff. This year he managed to place only 500 school-leavers in various jobs in many countries. The appeal

time paid director.
Further information may be obtained from GAP, Wellington College, Crowthorne, Berkshire RG11 7PU.

# 115upertanker, 1901"

The dawn of the century marked twilight time for the age of sail - with one notable exception. Kerosene oil for the lamps of China was big business and wind power was still the best way to get it there. The Brilliant, built for Mobil in Scotland, was the biggest kerosene clipper of them all, carrying four thousand tons on every voyage out.

About the time of World War I, though, newly developed oil-fired steam tankers proved to be better than sailing ships for transporting fuel in bulk to far eastern storage terminals. That meant an end to kerosene clippers.

Today, however, a Mobil Brilliant still plies the high seas. The clipper's modern namesake carries more than 100,000 tons of crude oil as part of a Mobil tanker fleet - both owned and chartered - with a total capacity of almost 10 million tons.

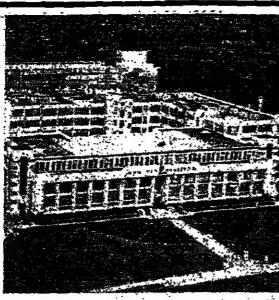

Our fleet goes on evolving. By replacing steam turbines with diesel engines, we are cutting fuel consumption by up to a third. This saving keeps transport costs down and frees valuable oil for use elsewhere.

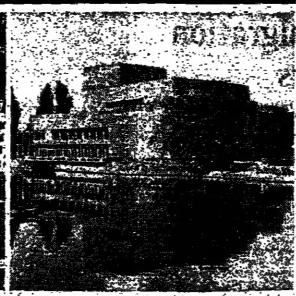

For these reasons, Mobil's marine engineers are now studying the possibilities of applying alternative energy sources - including coal and even sail - to tankers of the future.

No-one is immune to the rising costs of energy not even an oil company.

The buildings listed yesterday as being of historical or architectural interest: From left, Battersea Power Station, the Hoover factory and the Shakespeare Memorial Theatre, Stratford-on-Avon.

# Mr Michael Heseltine determined to review procedure after destruction of the Firestone factory A notable dozen are added to the nation's listed buildings

architectural interest.

Planning Reporter Twelve notable twentieth-century buildings including Battersea Power Station, the Hoover factory in west London, the Shakespeare Memorial. Theatre in Stratford-on-Avon and the main entrances and ventilation stations in the Mersey Tunnel, were vesterday listed by Mr Michael

Announcing his decisions to the annual meeting of the Victorian Society, Mr Heseltine said that the recent destruction of the Firestone

Heseltine, Secretary of State for the

Environment, as of historic or

factory in London, which he very much regretted, had highlighted a number of important issues. In the aftermath of that affair he made it clear that he was determined to review the way his department went. about listing and was considering urgently how arrangements might be improved.

"I have no intention of standing by while buildings of the inter-war period are destroyed without very careful consideration being given to the possibility of preserving them", he said. Mindful of the nature of his audience, he added that those who were not impressed with buildings of that era might be interested to know that he had also just

The newly listed buildings are: Battersea Power Station: the Gaumont State Cinema, Kilburn; the Hoover factory, Western Avenue; the Gillette Factory, Great West Road; and the Royal Masonic Hospital, all in London; the Odeon, Kingstanding, Birmingham; the Roche factory Walenge Hestford. Roche factory, Welwyn, Hertfordshire; St Nicholas's Church, Burnage, Manchester; Whitwood Mere Infants' School, Castleford, West Yorkshire; the main entrances and ventilation stations of the Mersey Tunnel; the Shakespeare Memorial Theatre. Strafford-on-Avon: and Southampton Civic Centre.

decided to list the Guildhall School: Our Architectural Correspondent writes: A glorious opportunity is offered by the listing of Battersea Power Station The gigantic turbine halls offer Britain the chance to create the immense volumetric museums to be seen in the United

States.

The Hoover factory was explicitly designed to carch the eye of the passing driver. The jangle of Azter, and art deco details are concentrated on the façade, and it works.

Despite its superb setting, the Shakespeare Memorial Theatre has neither the cheerful valearity of the neither the cheerful vulgarity of the Hoover factory, nor the sheer grandeur of Battersea. Leading article, page 15

# Shape of Birmingham to come is revealed

By Our Planning Reporter A comprehensive plan for improvement and further development of the central area of Birmingham during the next

10 years was published yester-Speakers at a press conference placed emphasis on en-couraging the growth of office employment, on conserving those parts of the Victorian city that escaped the clearance and rebuilding schemes of the 1960s, and on making it possible for more people to live closer

to their place of work.

The plan, which is a com-hined exercise by the city council, West Midlands County Council and the West Midlands Passenger Transport Executive, acknowledges that funds for large developments, particularly in the public sector, are scarce

ing of projects by public and private investment. The plan points out that the central area contains a large number of small manufacturing companies, many of which occupy cramped and outworn premises. The two councils' efforts will include building factory units, converting and improving outdated buildings, and making loans and grants to

small businesses. Environmental improvement proposals will embrace Broad Street, New Street and Cor-poration Street, and the campus of Aston University. Parts of those areas are likely to be-come pedestrian precincts. Attention is to be paid to de-veloping the city's canal system

as a tourist attraction. New hotels will be encouraged, and a site will continue to be re-served for a new concert hall. gests that, in the present economic climate, there might be opportunities for joint financ-

Lake pollution tests

Rivers flowing into Bassenthwaite in the Lake District are being examined after claims from fishermen that spawning grounds are being destroyed by pollution from the adjacent A66 road.

She said she believed Mr Moon was the second Messiah. She admitted that her conversion from a Church of England upbringing had split her family. She added: "My mother still believes what she was first told—that I am brainwashed and have lost my will, and is still deeply upset." Her father, Mr Robert Salter, a banker, was also upset. She said she believed Mr

# Moderators' concession may rescue scheme aiming at church unity

By Clifford Longley

Religious Affairs Correspondent A way may have been found round the impasse threatening to halt progress towards unity between the Church of England and the Free churches.

The provincial moderators of the United Reformed Church,

whose status was the bone of concention, have said that they are willing to be made bishops at the beginning of the next stage, rather than each waiting for his term to expire.

Thor concession, which may prove controversial in the United Reformed Church, is

expected to meet the object

expected to meet the objections of the Anglo-Catholic party in the Church of England.

Anglo-Catholics in the General Symod have indicated that they would resist the present unity proposals, largely because of their objections concerning United Reformed Church moderators. The moderators decision could well rescue the

The Churches Council on Covenanting had been given the almost impossible task by its constituent member churches, which include the Church of England, the Methodist Church, and the United Reformed Church, of reconcil-

ing conflicting requirements.

The council has proposed that the churches taking part should bind themselves by a coverant that would stop short of com-plete church unity but would lay the foundation. One prin-

docurine of ministry required the other churches to appoint

But the process was designed to reassure the Free churches that no reflection was cast on their previous type of leader-

Church sensitivities, it was proposed that each provincial moderator should be ordained a bishop when he came up for

As they serve for seven years at a time, the Church of England would have to accept moderators as equivalent to bishops, without their having been ordained as bishops, for up to seven years,

Most Anglican members of the Churches Council on Cov-enantings were prepared to accept that as an anomaly that ild expire, but three Anglo-Camplic members dissented. When the General Synod discussed the metter it was obvious that the Anglo-Catholic position had enough support to

Stop the scheme.

That leaves one other Anglo-Catholic objection unresolved: the presence of ordained women in the Free charches, and the Church of Englands refusal to ordain women.

The three dissenting mean bers of the Churches Council on Covenanting over the Churches Council or Covenanting over the Churches Chu on Covenanting opposed the inclusion of women ministers lay the foundation. One principle was that each church should recognize the others' would achieve by the back door priests and ministers, so that what the church had declined they were interchangeable.

# Witness believes 'Moonies' founder is second Messiah

Miss Judy Salter, aged 25, a sister, Jane, had followed her nursemaid, of Coulsidon. London, rold Mr Justice Comya and a jury in the High Court yesterday how she became a convert to the Unification Church whose adherents are described as the Moonies.

Miss Salter said she met two who brainwashed young conyoung men from the sect while on holiday with a girlfriend in San Francisco in 1978. She young men from the sect while on holiday with a girlfriend in San Francisco in 1978. She added that now she is a ballet teacher in South Korea, the birthplace of Sun Myung Moon, founder of the sect, and dedicentred on an interview with Miss Salter about her initial Miss Selter about her initial 10 day encounter with the church in the United States. Miss Salter said of an interview with the Daily Mail: "When the story appeared I was devastated. I really believed I had been given the opportunity to put in its right context what had happened to me." Cross examined by Lord Rawlinson, QC, for Associated Newspapers, she said: "It's the Daily Mail that aplits up families, not the Unification Church."

The hearing continues today. The hearing continues today.

### Bleak future is forecast for hardwoods

From Hugh Clayton

Lewes

A bleak future for oak and other traditional hardwolds in British woodlands was forecast yesterday by Mr Brian Howell, a director of Fountain Forestry. He said the future lay with softwood confers.

"That is what the world needs", he said looking at a straight Corsican piece more than 40ft tall in an East Sussex wood managed by his company.

Mr Howell said : " Hardwoods. can only be used as a luminy thing for furnishing for houses of the rich. The traditional variegated pattern of British woodland had evolved because of slack management in the

# Opposition Government defeated protest at twice over plans for pressure of new town asset sales

PARLIAMENT October 14, 1980

business House of Lords

The Bill's proposals for payments by new towns to the Secretary of State for the Environment were just a continuation of the Government's obsession with the public sector borrowing, requirement, Lady Stechman, for the Opposition, said during the committee stage, of the Local Covernment. Planning and Land (No 2) Bill.

She moved an amendment to oblige the Secretary of State to sanisfy himself that any such payment of planned development of the town and was consistent with the principles of sound financial management of its steets. The was tonsidered with an amendment to omit from the Bill the provision, that in the event, of failure to comply with the Secretary of State could fine Secretary of State could direct a new town development corporation to sell its assets. This was another example whether that proposal was sensible whether that proposal was sensible and in the interests of the development corporation to the restrictions on disposal land in the New Towns Act 1865.

The Government envisaged disposals programme would moderalized the proposal was sensible whether that proposal was sensible and in the interests of the development corporation to the new town for individual development corporations to plan their policy it was pursuitg in serve.

The Secretary of State to begin the proposal was sensible whether that proposal was sensible and in the interests of the development corporations to plan their policy it was pursuitg in serve.

am on Tuesday morning there was still a long way to go with about 169 amendments to be discussed and many debates on chauses.

Although the Opposition violently disagreed with a great many parts of the Bill and its many parts of the Bill in any improper way, and it did not intend to.

As the Bill in any improper way, and it did not intend to.

As the Bill had proceeded it had grown it was about six Bills in one. The longer ft was debated, the larger, it; got, Because him.

Bill had grown at least three or four days would be needed at Bill hell grown at least three of four days would be needed at the report stage and longer time at third reading. How the Government expected the House to do all that with the present printing problems she did not know.

I must tell the House (she said) that we first warned the Government at the beginning of the season that their programmes.

If was the comporation's job to serve.

The Secretary of State's objective was first to enable the Treasury to grad the money and so reduce the public sector borrowing requirement, and secondly to sell off valuable industrial and commercial assers on the cheap.

Large manbers of such assers coming for to a deprecised market at the same clase could only have the consequence of depressing the price paid to the public purse for them by would be buyers. These proposals had nothing to do with the interests of new towns.

If the development corporations had to sell it put them in a buyers' market. They would know they Government at the beginning of the eastion that their programme was impossible.

She was sorty to discuss the matter on the Governor of the House. Normally, business, arrangements were discussed amicably through the usual channels with each side trying to help each other. But the House required a clear inswer from the Government on how it proposed to carry through the increasing length of the Bill.

Lord Denham, Captain; Genflemen-ar-Arms and chief whip, said, he could not deny the Government was aking the House to consider a long and chief whip, said, he could not deny the Government was aking the House to consider a long and challenging Bill within a tight timesable. In view of the progress achieved during yesterday's sitting the Government was about the Covernment would do all it could to ensure the House was given opportunity to properly consider the Bill during the remaining stages. He respected the pressure under which the House had been working.

We have before us (he said) legislation to which the House had legislation to which the Government stach the very greatest importance and I am sure the House will recognize the need to get tiffs programme through.

Lady Llewelyn-Davies.—In think he will be a genius if he gets this all through without driving us all mad. the session that their programme market. They would know they must sell sud so would the potential buyers. The latter would be aware that even if the prior they offered was lower than reasonable offered was lower than reasonable the new flying, mould have to accept if the penalty clause to which the second emendment related was not to come into operation. for Saudis From Ian Murray

Paris, Oct 14. France is to provide Saudi Arabiz with a navy. For 14,400m francs (51,440m) it is to build four 2,000 ton frigates, two 17,000-ton refuelling tankers and supply a range of missiles and armed helicopters.

Included in the deal is an agreement to provide crew training and initial logistical support, because the 1,500 strong Saudi Navy is, at the moment unable to men the modern ships it is to buy. At present it is little more than a glorified coastal parrol, with one large parrol boat, four coastal mine-sweepers, 72 coastal mine-sweepers, 72 coastal patrol craft and a few

old American landing craft. The country is aware of the need for marine defence and has already recently ordered four corveties and nine attack craft equipped with American Har-

equipped with American Harpoon ship-to-ship missiles.

The frigates on order are to
be armed with the Otomat surface-to-surface missile which has
a range of 100 miles. The
Dauphin halicopters being supplied will be able to carry the
light AS-15 anti-ship missiles,
which are designed to be launched argingt surface vessels. ched against surface vessels.

This is the second naval con-tract France has clinched with the Gulf in recent weeks. At the end of last month Qatar ordered three patrol vessels equipped with surface missiles at a cost of 1,500m francs. Saudi Arabia has also been buying extensively from French companies to equip its army with 12,000m francs worth of tanks, guns, helicopters and missiles.

nencopters and missiles.

which is its largest oil supplier.

### Turkish troops free hostages from aircraft From Sinan Fisek Ankara, Oct 14

Ankara, Oct 14

A special unit of military sharpshooters flown in from Ankara today liberated 148 hostages from a Turkish Airlines Boeing 727 held at Diyarbakir airport in a shoot-out in which the four hijackers and seven

passengers were wounded.
The four men seized control
of the Munich-Istanbul-Ankara
flight just after it took off from light just efter it took off from Istanbul, and asked to go either to Tehran or to Jiddah. The aircraft landed at Diyarbakir, 600 miles south east of Ankara, when the pilot said he had forefuel. Military authorities refused to refuel the aircraft, and asked that the hijackers are the market and the military authorities.

and asked that the hyackers give themselves up.

The four men, who had apparently smuggled the guns on board in the Korans they were carrying told passengers that "the rules of Islamic law are now valid on board this plane". They distributed starves to the women to cover up their to the women to cover up their hair. Later, they freed 54 of the passengers, mostly women and

# There are believed to be 63 ships trapped in the waterway four of them British. Three of these, the Guid Heron registered in British, and the Wenjames Hongkong and the Wenjames Hongkong and the Kiscun both registered in Hongkong are in Basra. There is more concern for the crew of the Antenin also registered in British, which its an territorial gains, has always been readly to accept a cease lire. Its present position appears to be that it will not accept such negotiations before a full ceasefure. Meanwhile reports are awaited from Mr Habib Chanti the Tunisian secretary general to the Muslim group of countries, who is visiting both damaged, but British has been a full ceasefure. # Mr Christopher Tugendhat, who becomes senior British Commissioner at the EEC with the retirement of Mr Roy Jenkins in January, will be one of the five vice-presidents of the Commission. He has made

Brussels portfolio rivalry

From Michael Hornsby Brussels, Oct 14

it clear that he wants to retain his present responsibility for the EEC budget.

In the past the budget was not regarded as a major port-folio, but the combination of the dispute over British Conributions, coupled with imminent exhaustion of EEC's financial resources, has transformed it into one of the nost influential jobs in the

This, however, could lead to I Cheysson is also hoping to M Cheysson is also hoping to be reappointed next year, and has come to regard overseas aid policy as his fief. He is a well-known and well-liked figure in the developing world. Other possibilities for Mr Richard are regional development policy within the EEC—a job held by Mr George Thomson in the 1973-76 Commission—and energy policy. a portand energy policy, a port-folio of considerable potential which has still to be developed. Mr Gaston Thorn will be touring EEC capitals in the coming weeks to discuss the allocation of jobs within the Commission with government leaders, who will be asked to make their preferences known.

facing Mr Richard It is unusual for a sitting Commissioner to be forced to take another portfolio against his will. By contrast, Mr Richard, as a newcomer, will have to fight rather harder to secure a worthwhile job. The most important portfolios are all spoken for in one way or another.

Herr Wilhelm Haferkamp is expected to stay on as Com-missioner for External Affairs. missioner for External Affairs. Likewise M François-Xavier Ortoli is expected to continue as Commissioner for Financial and Economic Affairs, while the agricultural portfolio is traditionally the preserve of one of the smaller countries.

Mr Richard is expected to aim for the department in charge of EEC relations with the developing world, which has been presided over by M Claude Cheysson of France since 1973. There has long been resentment in Britain over what is felt to be a distinct bias of EEC aid policies in favour of former French colonies.

The final share-out, however will take place during a long night of bargaining in Brussels early in January at the start of the four-year term of the new

Commission. Whatver job he finally gets, Mr Richard can rest assured that the financial remuneration will be generous. The present basic salary of a Commissioner is £55,000 a year. As a vice-president Mr Tugendhat will be paid £61,000.

# Khmer Rouge holds on to Kampuchean seat

eneral Assembly again decided yesterday to keep the Kampuchean seat at the world body occupied by the Pol Pot Khmer Rouge regime.

صر فامن رلامل

Seventy-four member states followed the lead of the Association of South-East Asian Nations (Asean) (Malaysia, In-donesia, Singapore, Thailand and the Philippines) who had argued that no recognition should be granted to the Kampurhean regime installed in Paom Penh by Vietnam.

They rejected an amendment, proposed by Laos, challenging the validity of the credentials of the Khmer Rouge delegation. ere were 32 abstentions.

There were 32 abstentions.

Mr Ling Qing, the Chinese delegate, said that the Government of Democratic Kampuchea (Khmer Rouge) was the only legal one and the Heng Samrin regime was "a mere pupper installed by Vietnam after its invasion of Kampuchea".

Mrsching Niciberi, of

Mr Masahiro Nisibori, of Japan, emphasized that Japan's endorsement of the Khmer Rouge credentials in no way konge credentials in no way implied any detree of support or approval of the Pol Pot regime. But no matter how deplorable that regime any attempt to overthrow it through the intervention of foreign military forces was unjusti-

Mr Niaz Naik of Pakistan regard his Covernment's reservation on the credentials of the representatives of Afghanistan at the General Assembly session.—Agence France-Presse. Asean satisfaction: The Asean countries were tonight con-gratulating themselves on a successful campaign to main-tain the Kampuchean seat at the United Nations in the hands of the Pol Pot regime. (David

Watts writes from Singapore).

New York, Oct 14.—With a "moral" stand by the United arger number of votes than Nations in refusing to condone last year, the United Nations the Vietnamese occupation of · Kampuchea.

There had been little doubt in fact, that the Soviet Union fail in their attempt to eject the Khmer Rouges from the seat. What has gratified diplomats here is the fact that there has been no erosion of support for the Khmer Rouge government in spite of several setbacks

The recognition of the Heng Samrin Government by India had brought concern in the Asean countries that other non-aligned and Third World countries might follow suit. As support for the Asean position actually increased, the voting could be considered a reverse for the Soviet block, the Chinese pointed out tonight.

As suggested in The Times.

the fresh support seems to have come from the Arab world which has been impressed by the events in Afghanistan.

There was one notable defection, however: The Australian

Government decided to with draw its recognition from the Khmer Rouge Government. This brought disappointment to the Asean states though it was not unexpected, because the issue has been an important domestic one in Australia with particular relevance during the election

A spokesman for the Foreign Ministry in Singapore said: "We knew it was coming and we are naturally disappointed. It may be in their own national interest, but we expect them to vote with us on the principle of Vietnamese withdrawal from Kampuchea." (Australia is a co-sponsor of the Asean resolu-

# S African judge blames bureaucrats

# Court independence undermined by state

From Ray Kennedy Johannesburg, Oct 14

A senior South African judge claims that a clique of powerful bureaucrats and politicians is trying to subvert the independence of the Supreme Court.
The strategy over the years,
says Mr Justice John Didcort
of the Natal Beach, bas been less power for the Supreme Court, the threat of infiltration influence and control by the

These outspoken comments are contained in a confidential memorandum the judge has submitted to the Hoexter Commission which is inquiring into a government proposal to esta-blish an intermediate court between the lower courts and the

the Communist Party in the movement.

Mr Badkowski said the delay was being used as a pretext to impede scrivines like publishing collecting dues and employing staff. He said a row between the union and a local Gdansk newspaper over censorship, which resulted in Solidarity suspending a regular column, was resolved today. Supreme Court Copies of the memorandum have been obtained by a Johannesburg newspaper and a maga-zine and long extracts were published today against his

The judge says that suspicion is rife in the ranks of both the judiciary and the legal profession that the establishment of resolved today.

Mr. Badkowski said the unionwas still facing problems with
the official media in other areas,
and gave as an example the
coverage in the national press sion that the establishment of intermediate courts is intended eventually to "Cur the Supreme Court down to the size the planners want it to have". He says: "The goal, if such it be, will never, of course, be acknowledged openly. The of a decision by delegates repre-senting print, workers not to join the Solidarity movement. The decision, as reported, gave a false impression that print workers had rejected the acknowledged openly. The Supreme Court is probably print workers had rejected the Solidarity movement.

"The printers union withdrew from the old union council, but it retained its old structure and personnel and those its delegates according to the old methods", he said.

"So the results of the vore were not surprising.

All Polish unions have now left the old Central Trade Unions Council, some to set up their own independent unions. South Africa's most respected institution at home and

abroad ".
He adds that the bureaucrats whom he has in mind and the politicians in league with them, politicians in league with them, realize this and from time to nime pay "ritual tribute" to the Supreme Court, its integrity and impartiality. "But their hearts are not in the exercise", he says, "The idol they really worship is the State."

"The State's dominion over exercised." Unions Council, some to set of the says, their own independent unions worship which Solidarity easys are not to foin Solidarity which has a what in membership of about four nil strong everybody and everything is what matters to them and a strong and independent

# Handmade Leather Briefcase-£34.95 (+p&p) Specially designed for La Crème de la Crème

A strong briefcase is a necessity but this beautifully styled leather briefcase, specially designed for La Crè de la Crème, is more than just a necessity: it's practical organiser; a pleasure to use and an elegant

Handmade by British Craftsmen, & the case has a solid timber [ frame covered with mellow, hardwearing, quality leather. The traditional locks are solid brass and two keys are provided for security.

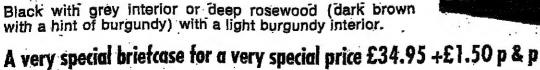

**ELEGANT.** The outstanding elegance is achieved primarily by the slimline styling. It measures
17in x 12in x 3in—a neat
exterior which belies the amount it will comfortably carry. Two vertical rows of stitching on the lid provide the only unobtrusive decoration.

PRACTICAL. The interior is lined with velvety brush-clean fabric and features gusseted filing compartments, two small memo pockets and pen holders.

The leather covered handle is contoured for comfortable carrying and there are studs on the base of the case for protection.

Finally, the case is available in two equally attractive colourways :--

Black with grey interior or deep rosewood (dark brown with a hint of burgundy) with a light burgundy interior.

Leether Briefcese(s) @ 238.45 each including (21.50) postage and packing.

### Cuba to free 30 Americans in goodwill gesture

From Our Own Correspondent
Washington Oct 14
Cuba is to release 38
Americans who are now in
Cuban prisons. The State Department believes that there
are 38 of them, but five have
joint American Cuban national ty and may not be included. They are serving sentences in including subversion and propa-ganda against the regime. Two of them were given long jail terms for dropping Christian leaflets over Hayana from a small aircraft they had hired for the puroase.

for the purpose.

They will presumably return home. Others, who are wanted here on drug charges or for hijacking airliners to Cuba, may wish to go to some other country.

This is the second concili-atory gesture that Cuba has made towards the United States

Florida. Although the two gestures will please Washington, they are not going to improve relations much. The Americans would wish to see an end to Cuban interference in Africa.

From Our Correspondent

in the Pretoria Supreme Court by the State Trust Board.

Last month Dr Rhoodie won an appeal against his convic-

tion and sentence of six years isonment on fraud charges

esulting from the Information

His latest appeal was dismissed last month. By October 22, the California Supreme Court is due to decide whether to hear an appeal from that decision. Last month Amnesty International wrote to the Chief be heard and a retrial ordered. Mr Spain was the only one of the six defendants convicted of conspiracy to murder, Two were acquitted and three con-victed of lesser, crimes. Only

victed of conspiracy to murder for the appeal. "They were the prosecution. The judge did two of the three guards who telling the jury these are not tell the defence about this died in the incident. During his vicious, dangerous animals", and allowed her to stay on the 18-month trial he and the five said Mr. Spain, a compactly other defendants. (the "San built man with pele brown skin, Quentin Six") were chained to an "Afro" baircut, and a nearly their chairs in the courtroom: trimmed beard.

In a letter to the Chief Justice, Mr Nigel Rodley of Amnesty put the point in more formal terms: "Such shackles surely deprive a criminal deiendant of the presumption of innocence which is an integral part of a fair trial", he wrote. The other main ground of appeal is the admission by one of the jurors to the judge that a friend of hers had been killed by a member of the Black Pan-thers. This, she thought, might one apart from Mr Spain re-

thers. This, she thought, might disqualify ber from ruling dis-passionarely in a case in which

attempt. In 1976 he was con- anys was one of the grounds Black Panthers was stressed by

Mr Jackson did discuss philosophy of the Black Panthers, who were then regarded by the authorities as a group of dangerous terrorists. He denies, however, that be joined Mr Jackson in planning the escape from San Quentin, or that he knew of it in advance. Like the Black Panthers themselves, Mr Spain now rejects the violent philosophy of the 1960s.

He has been in prison nearly half his life and, unless his appeal succeeds, does not expect to be paroled for five

become an electrician when he is freed:

Mr Spain is in a sense an anachronism, a piece of left-over business from 10 years when black nationalism and its accompanying revolutionary rhetoric were important components of the radical movement which seemed then

"The San Quentin case has attracted widespread attention outside the United States", Mr Rodley wrote, "having, as it does, its origin in a period of American history when mis-carriages of justice in cases of mixed racial and political con-tent became sadly familiar to international public opinion".

### Last night's television

Forgive Our Foolish -Ways

BBCI

### Michael Ratcliffe

Vivien (Kate Nelligan) runs her husband's Yorkshire prep school in the faint hope that he will return alive from the Far East. It is 1946. Wolf (Harmut Becker) is a German PoW billeted on the school pending repatriation to his family in Bavaria. He clears the gutters, rolls the cricket pitch, swabs the floors, keeps his distance but gets on well with the boys, particularly Vivien's young son. Vivien falls in love with him and her husband's death is confirmed. Reg Gadney's first original ay for television subtitled period piece, but the period less that of its setting and me, painstakingly reconstructed though these are, than of today, many of whose tastes, fashions and preoccupations it exemplifies. Forgive Our Foolish Ways is a romance of the constitution (courses For reconciliation (compare Fair Stood the Wind for France); its title alludes to the vague cultural memories of compulsory Anglicanism and its music makes ample use of innocent treble voices fluttering to per-

fection high words they cannot understand (compare Tinker,

Tailor). It exudes nostalgia from every frame. The lower

orders carry on as the lower

Doctors ATV

### Michael Church

If the amount of information they have to imbibe is one rea-son for the inordinate length of their training, another must surely lie in the fact that doctors tend by nature to be slow learners. Last night's touching little documentary Doctors brought evidence to support the latter view. The assistant director of the British Postgraduate Medical

Federation believes that "the education of the emotions" is going to be the most impertant aspect of education in the next hundred years, and he is proud to find the medical profession in the vanguard of this new been? Not to California for Nowhere near a drema school nor even a progressive primary school. Groups of industrial executives have been digging up their feelings about digging up their feelings about one respect. Doctors have each other and their bosses for always been past masters in the decades past.
Some of the assistant direc-

tor's pupils have in norn been making late but welcome dis-coveries. Dr John Tomlinson, a

orders used to do: pert Rha. loyal Cook and comical Capper. the school's dogsbody, explaining to Jerry the importance of the teabreak in the British victory over the forces of the Third Reich. The Assistant Master provides all the heavy light relief of Oxbridge. There is (fater) on old Rolls-Royce, Remembrance Day service

and a home-made toy train. .. More significantly, the show thins down a decent idea for a 60 minute play into four halfhour episodes—shown to the press all in one go, thus making one more painfully sware than usual of the structural artificiality and stretching difficult to avoid in this format. Miss Nelligan, one of our most dangerous and individual dangerous and individual actresses, plays a part so well within her shillings that she could have done it sleeping. She is very good, but she does not exactly transcend it either, and it seems a waste of her range. Becker does what he can but heround the expression of but, beyond the expression of irony, intelligence and kindness, is given nothing to go on : Wolf remains, a shell,

Forgive Our Foolish Ways is Hartley of Hare, both of which school of Bates rather than writers tackle nostalgia in more acidulous styles, and we are acidulous styles, and we are never encouraged, except in one brief later scene of alco-holic despair, to feel that there is much more going on than meets the eye. What does meet the eye, in Mr Gadney's script and Christopher King's direc-tion, is unfailingly gentle and tasteful, but slight, and safe.

GP from Hampshire, would make a very passable actor provided he was confined to tearful and sensitive roles. Others in the assistant direcworkshop revealed comple-mentary talents, as they proon the floor to acting out painful doctor patient situations. Tears of righteous indignation sparkled, in their eyes as they reviled insensitive consultants in absence, hand gresped hand as they realized at last the joys of emotional communion.

or emotional committion.

It would seem, however, that
more discoveries remain to be
made. A documentary emitled:
Nurses might lift the veil on
another corner of this mysterious world. So might a documentary entitled Patients. If
the assistant vibration's "bidden of rage and vicarious grief, what would it be for the lower orders? Dr Tomlinson and his was turned inexorably inwards. Slow learners? An, not in art of presenting their case. No sensible person would dany that they bear heavy emotioned burdens, but Boctors, on their behild, went over the top.

# Triumphant survivor of the post-war boom

Min the seven years since her husband came to a parting of the ways with the National Theorie, Joan Plowright has been spending much of her time in the West End playing in a health acceptail and particular highly successful and profitable sequence of three comedies, two by de Filipps (Saturday Sunday Monday and Filumena) and one by Ben Travers (The Bed Be-fore Yesterday), all of which achieved runs of well over a

Tonight she tries her luck with a fourth: Alan Bennett's new comedy Enjoy, ser on a "Leedsish" housing estate where she and Colin Blakely ing without much success to while under investigation by a team of social workers. It opens at the Vandeville in a produc-sion by Rouald Eyre, but Ben-nett would not (thought Miss Plowright) take kindly to much further discussion of his play before its premiere:

"During rehearsals he used to lie on his back in the stalls groating a lot, but I think he was fairly happy with the way it went during our trial fortnight in Richmond. We only lost two old ladies, and they walked out during a marinée. You never know with Alan's plays until you get them in front of an audience what they're going to be like. Enjoy is about love and death and cruelty and age and hypocrisy and forgiveness and language and the twentieth century and things like that. It's also very

things like that. It's also very funny."
Having thus disposed of the play, we began to talk about her. Now at the very beginning of her fifties, Joan Plowright is a survivor of the first provincial onslaught on the London theatre a quarter of a century ago; her thoughts seem to be turning back towards those heady days of Devine's Royal Court more frequently now, partly because frequently now, partly because the Oliviers have just bought a from Sloane Square (a kind of homecoming, not only because her career really started there ner career really started there but also because it was in the Court production of The Enter-tainer that they first met) and partly because she too is just beginning to think about an autobiography:

"Larry has nearly finished his after a year of writing and for publication next autumn, and I'm just thinking that perhaps I'd like to do my own book about the early years at the Court with Dexter and Gaskill and Devine, who was my great teacher and father-figure. He was the one who got me out of being 2 'play as cast' small-part actress and into a position where I could choose my own scripts, and I'd hate to think that the only autobiography coming out of those years would be John Osborne's.

board of the local football team Envland Theatre Company, was There's still such a lot to be

told, if only I could sort it all out and remembered details." sion glory. Herself a demon-cricketer and an eager girl-guide, she rapidly followed her mother into local amateur dra-matics. "You're no oil paintthe Her character and her conversation are still streaked with ing", mother once told her, but you have good, useful eyes and thank God you have my legs and not won for her was to be Olivier and an equally fiery sense of her own independence; even after the passing of almost a decade she will still not dis-cuss the Olivier years at the National, nor will she respond my legs and not your father's. If you've got any talent, you'll be all right". Convinced, and rightly, that she had, a 15-year-old Joan Plowright answered an ad in to my suggestion that a certain those wears made more sense n the context of her role as

The Stage announcing that Harry Hanson was auditioning for one of his many touring reprompanies. A few weeks later, finding himself face to face with a somewhat podgy schoolgirl, Hanson simply pointed to a wastepaper basket in his office overflowing with screwedup letters from aspiring accresses and implied that therein a nurshell was all theatre-life. Undaunted, she returned to Scunthorpe, declined her father's offer of a job reporting on his local paper, and instead won a scholarship to the Old Vic school where Devine and Vic school, where Devine and Byam Shaw and St Denis were then teaching. From there she got into the Croydon Rep and eventually back into the Vic itself, playing a fairy in Guthrie's Dream when all the boys he had originally hired had to go back to school. After that she joined the West of

during a period of Second Division glory. Herself a demon man (Ruger Gage) and made
cricketer and an eager girl
guide, she rapidly followed her
mother into local amateur dracalled The Duenta and then as the cabin boy in the 1955 Orsen Welles Moby Dick: He had an extraordinary

total theatricality about him, but working for him was a little precarious as we never knew whether there was enough money to get the curtain up, and often in rehearsal he'd just disappear to avoid tax collecwho were quite literally at the door. Gordon Jackson and Kenneth Williams and Pat McGoohan were also in that cast, and I think Orson gave me the cabin boy as a sort of apology because he'd originally offered me Emilia in his Othello and then given the lob to a Rank starlet instead.

"The weekend after we opened I got a terrible review from Tynan in the Observer, and the whole of that Sunday and Monday I sat in my flat because I honestly thought people were going to point at me in the street and say She's the one Tynan hated. On the Monday night I could barely get myself on stage, and every time a program thought, that it clear is bored and it's all my fault. After-wards Orson sent for me and said How dare your presume that a personnence of yours

longer than you, and never got away without at least one really lousy review. What makes you think you're so different? I learnt a lot about critics from that"

Not long after that she did a legendary double bill of

Chairs and The Lesson.

and the rest is of course all in the reference books; highlights, of her National years include a Saint Joan for which Syhi Thorndike handed on to her a manscript of the original trial sutographed (and originally given her) by Shaw himself, which Miss Plowright now which Miss Plawright now keeps in trust for whoever might be the Joan of the next generation. Then tame her Portis and the suggestion (frontically from Tynan himself) that she should do Fitumena. In fact, at the National she never did, surgely because it was felt that Saturdae Sunday Mendan heres. day Sunday Monday better suited the rest of the company: When we started rehearsing When we started rehearsing that, at the Vic. it all seemed desperately infumny and after one particularly awful rimthrough Zeffirelli lost his temper with us and shouted the audience will teach you this play and sure enough they did. You have to get used to working with Franco: when we were in America last year raving the do Filmment he entered he en to take it over.

After that I went out to
California to do a television

version of Diary of Anne Frank playing the mother; our eldset son is living there now, study ing film at the University of California and playing a lot of tennis with Tony Richardson. But, as Caral Browne said, Los Angeles is no place for a woman over 35 so I came home again as soon as we'd finished the filming.

Worries? Nor a lot: sometimes I look at Tutin and see her doing three plays in a year at the National when I'm still in the same West End comedy and think maybe I should do more, but then I rather like a long West End run with no rehearsals because you get to see more of the children and

our younger two are still at home, so I may as well enjoy their company while I've still got them in myself. This was the first real summer I'd had the first real summer I'd had off in four years, and it was wonderful.

"Mind you, I'd go back to the National if the parts were right; I've been asked back to the Lyttalton, but I don't see much point in just going back for one play. If that's all you're doing, you might as well-do it in the West End and make some real money."

Pauk Trio St John's / Radio 3 Lyric Studio

### Hilary Finch

The robust rhythms of Hungary resonated round the elegant pillars of St John's, Smith Square, on Monday afternoon us, first Ralph Kirshbaum, then Gyorgy Pauk joined Peter Frankl for, respectively, the Bartok Rhapsody no 1 for Cello and Piano, and no 2 for Violin and Piano. They then joined forces for the Brahms C major Piano Trio, with its slow move-ment variations on what could easily be a Hungarian folk

The rhythmic line was, in fact, what counted in the first Rhapsody: Kirshbaum's intonstion was not always razor sharp the note, to compete with the resonance of Frankl's full-bodied playing; and he was not always in perfect control of the fiendishly difficult penultimate passages.

The astringent melancholy of Pauk's playing in the second of ranks playing it the second.
Rhapsody was matched nicely by Frankl, who never allowed the percussive quality of hispart to obscure the folk melodies at its heart. For the second, dance-like part Pauk found a new raucous voice with long, firmly-placed down bows, and the light richness of Frankl's touch ensured that capriciousness never became skittishness. Given their spacious, at times

almost languidly warm reading of the first movement of Brahms's Trio the dotted rhythms of the piano part needed to be defined more clearly in the St John's acoustic. A better balance was achieved in the second, slow movement, Frankl's gently-cushioned yet rock-hard chords providing a firm underlay to some string playing of superbly sustained intensity. Generous swelling within each bar (parricularly in the cello solo variation) threatened to, but never did, destroy its broad arcs of sound. The clear semi-quavers from

each barely-touched string in the feather-light scherzo formed a delightful, almost impressionistic contrast to the lush long bowing of the movement's

similar situations who will say cause he is deaf to the rhythms . so on. similar things, and he has suc-cessively seized increasingly hideous pidgin to make it look ludicrous working-class mouth—common on the page in the pieces for liberal ideas, who hope that actors can make it shout at equally indicrous sound real on the stage. representing mouthrieces

The Potsdam Quartet

For instance, the important

a play which includes girls stripping a boy and boys strip-ping a girl and an incidental castration, is a foul-monthed punk feminist. One speech is written thus: "... someone's chryin' ter give you an ejucation 'ere buch you ain't listenin' are yet? Fer gawd's sake! Gawd an' oos this wiv is mornin' suit? This 'usband

for some time now, there are tensions, and the fruitful alliance is threatened.

calities. Another and real merit the dependence upon American is that it is as tree as possible actinique and facilities which from the mossious regiment has become habitual since 1964 in their specific makes so many in the Royal Navy to be prefer from the monstrous regiment has become habitual since 1954of initials which makes so many in the Royal Nave to be bender.

American works on the develope able to any alternatives, to ope ment of nuclear wemponry an for the larger Trideot subimpenetrable make. range of 4,000 nautical miles as against the Polaris' 2,500. The case for an independent nuclear force is essentially a national one (the ability to national one (the ability to desiroy say Moscow in retaliation for the annihilation of London being considered necessary to dener the Soviets from perpetrating the latter). It is argued by Mr Pym, however, that it would strengthen the Atlantic Alliance's chances of preventing war for the Soviet Union to be faced with two nuclear decision-makers—American and British—instead of one.

of one.

The same argument to doubt aplies to the French independent nuclear deterrent. The argument is plausible but speculative. What is undentable that the interestion of the is that the integration of the United Kingdom Germany, and Italy with United States, resulting from their possession of bases for the proposed American Theatre Nuclear Forces, establishes a more convincing solidarity between them than does the possessing of strategic bellistic indesites.

# Stravinsky centenary festivities get off to a flying start

West Berlin
Ight Stravinsky's hundredth
anaxyersary still hes two years
in the future, but the Berliner
Festwochen went ahead and
consecrated this year's festival to the memory of the
great composer. With a worldwide explosion of Stravinsky
celebrations bound to take
place in 1982, Berlin
apparently decided to jump
the gun simply in order in
get the drop on the competition.
Things got off to an impres-Things got off to an impres-sive start with an exhibition at the Academy of the Arts offering a priceless assorment of Stravinskiana, including original scores and letters as well as original set designs and cos-tumes. Even Moscow's Associa-tion of Composers has co-operated, sending a series of photographs documenting Stravinsky's only return to his homeland, in 1962 at the age of 80. The informed visitor remarks, with revulsion, the fawning face of Tikhon Khren-nikov in a noticeably large

7.31 STARTS THURS 160CT GORAN PASKALIEVIC

# England's Champion hopes | Folkestone programme Haydock Park programme 20 CHESTNUT STAKES (3-ro: Maidens: £2,426: 1[m) are dealt another blow day, whereas the other Callic runners. In Fijar and Northern Baby, will prefer it to remain dry. With 31 runuers standing their ground for this year's Cesarewitch we look like seeing a field for the marathon that starts in Cambridgeshire and finishes in Suffolk reminiscent of the old days when there was invariably a huge turnout. In recent years fields have been depleted since grading was introduced in this country. At the request of the Tote, who sponsor the race, those restrictions have been lifted this season. So we can look forward to seeing the largest field since Major Rose best 32 others to the field is Barry Wragg's improving filly. Popaway, and iromically she would probably have not even been entered if grading had not been lifted. As it is she will still have to carry 121b more on the day than is laid down is the long handicap. Still this does not deter people from backing her and yesterday the sponsors trimined her price once against and she is now a 14-1 shot. Af Kowait remains firmly entrenched as favourite to recover some of the losses that his stable suffered in the first leg of the autumn double when the gamble on Tender Heart came unstuck in the Cambridgeshire. Talking to their trainer, John Suntliffe, in Ireland last week I got the distinct impression that he does not expect Al Kuwait to let him down, provided ther the horse's lockey "Taffy" Thomas does not fell into the same trap that Joe Mercer did on Tender Heart. Finally the William Hill organization announced yesterday slight alterations in their book on this year's Dewhurst Stakes which they are sponsoring again on Friday. Storm Bird remains firm at 11-10, having been well backed. Then they go S-2 To-Agori-Mou, S-1 Centurius, whose price has been cut from 7-1, 6-1 the French challenger, Miswald, and 10-1

By Michael Phillips Racing Correspondent

English hopes of keeping this
year's Champion Stakes at home at
Newmarket on Saturday took
another blow yesterday when
Jercmy Tree decided not to declare
Kris's Ascot conqueror, Knowa
Fact, Apparently the colt who was
awarded this year's 2,000 Guineas
at Newmarket in the spring did not
work as well yesterday as his
trainer would have liked. So
Known Fact retires for the season.
He will, however, be kept in training again next year by his Sandi
Arabian owner, Prince Khaled
Abdulla, whose adventurous policy
is so refreshing. Racing Correspondent

Abdulla, whose adventurous policy is so refreshing.

Known Fact's absence from Saturday's line-up further weakens the home defence, which was already reeling from the announcement that Ela-Mana-Mou had been injured and could not run. Still we are able to field the Benson and Hedges Gold Cup winner, Master Willie, and yesterday the Tote, who will be sponsoring the Cesarewitch on the same afternoon, nominated him as favourite in their Cesarewitch on the same atternoon, nominated him as favourite in their book at 7—2. Then they go 6—1 Cann Rouge, who was just beaten by Master Willie at York, 7—1 Radjar, 8—1 Fingal's Care, 10—1 Corvaro, Little Bonny and Northern Baby and 12—1 bar those

Northern Baby and 12—1 bar those seven.

15 stood their ground for the Champion at yesterday's four-day forfeit stakes. Normally anyone who had an interest in such a live hope as Ela-Mana-Mou would have heen distraught that he could not take part, but not so Tim Rogers. Be also has a stake in two of the other acceptors, namely last year's winner, Northern Baby, and Nadjar. In view of the fact that Corals are laying only 4—1 sgainst Nadjar the Tote's offer of 7—1 will surely appeal each-way to the ante-post speculator. one Prix Jacques le Marois at Deauville in August before failing narrowly to hold Kilijaro in the Prix du Moulin at Longchamp. What is clear is that along with another of the French challengers, Corvaro, Nadjar will relish every drop of rain that falls at Newmarket between thus and Saur-

Swinburn out for season

Waiter Swindurn will not tide again this season. X-ray examination showed that when he fell on Krugerman at Warwick on Monday he cracked two bones in his wrist.

Swindurn said yesterday: "I couldn't believe it when I was told. There is very little pain, but it will be in placer for six weeks. I shall rill be able to go to India at the end of November."

Swindurn, aged 19, has ridden 49 winners this season and was recently signed up to be first jockey to the powerful Michael Stone stable near year.

Peter Walwyn's apprendice, Nick Home, was asspended for three days from October 23-25 by Warners, the was taspended for three days from October 23-25 by Warners, was asspended for three days from October 23-25 by Warners, the season and was cracently signed up to be first jockey to the powerful Michael Stone stable near year.

Peter Walwyn's apprendice, Nick Home, turn after complaints from 16 control of the season and was from the first power of the control of the season was apparate one. The stewards found that his mount had interfered with Sodian about a furlong from the Hush. They were unable to deal with Bote on Monday. After the incident havolving Howe was a separate one. The stewards found that his mount had interfered with Sodian about a furlong first in the Rulph Cross Handleap at Redcary yesterday, lost the race, placing Traice Falcon, after finishing first in the Rulph Cross Handleap at Redcary steered with Sodian about a furlong first in the Rulph Cross Handleap at Redcary steered with sodian about a furlong first in the Rulph Cross Handleap at Redcary steered with sodian about a furlong first in the Rulph Cross Handleap at Redcary steered with Sodian shout a furlong first in the Rulph Cross Handleap at Redcary steered with Sodian shout a furlong first in the Rulph Cross Handleap at Redcary steered with Sodian shout a furlong first in the Rulph Cross Handleap at Redcary steered with Sodian shout a furlong first in the Rulph Cross Handleap at Redcary steered, was secured against the reduce of the same and

# Romania rhapsody a damaging prelude

Football Correspondent Ploiesti, Oct 14 A more damaging prelude to England's World Cup match against Romania in Bucharest to-morrow it would be difficult to envisage. A disappointing performance, incorporating the worst ever defeat for the under-21 side here today contained little pro-mise for the near or long-term.

mise for the near or long-term future. The Romanians will have takenmuch heart, and rightly so, England, led in the attack by Fashanu
and including Cowans in midfield,
hoth of whom had been candidates for the senior team, collarsed to four second-haif goals
by a tenacious Romanian side who
could have scored at least two
more and were not far off doing

The England defence, watched by their seniors, fell after the midfield falled to take a grip when the action became bough and Romania introduced a lively substitute right winger, Georgan, who was the crucial influence. was the crucial influence. The persistent: erratic, but necessary interwentions of the Yugoslav referre indicated the nature of the game. Tacking was always firm and the more frail players, notably Hilsirs and Cowans were unable to provide the fusion of imagination that was hadly needed. badly needed.

Not that the heavyweights fared much better after a mundane first half in which England caused the home goal only one moment of trial when Baker, England's best player of the game, released Dillon into space margoal. The Romandan defence recovered and the second half became a catalogue of troubles for England.

Baker headed off the line early in the balf and then Dennis

in the balf and then Dennis offered Terhes the Brist of his three goals by passing back to allow a free shot to the efficient centre forward. In the meantime, Fashanu continued to clash with less weighty bodies, but often

Dyson: unintentionally added to England's misery.

seemed to come away second best. His performance sgainst tough, Herce marking was particularly unprofitable.
Dennis added another unfortunate contribution when bringing down Georgan, who was proving a handful. The referee awarded a penalty which, when Bozesan sliced high and wide, seemed to give England some relief. It was short lived. Ludic, in the England goal, made a clever save off the line from Tarkes, but in the 76th minute a long throw by Bozesan hit Dyson on the shoulder, then deflected into goal. As Georgan kept running at the England delence, so it crumbled.

Elliott. also did little wrong although they were seldom fully extended.

During the second balf the United States made four substitutions without affecting the course of the game, although Fowles proved to be less aprily hamed than Crudo, the man be replaced.

# Ward joins Forest-at least for the moment

By Clive White

Just as Alan Mullery, the
Brighton manages, was sections
in his office over the belated relection by Nottingham Forest of
his long-time starlet, Peter Ward,
and threatming never to do busness with Forest again, the telephone rang. It was Peter Taylor,
the assistant manager of RorestWe have changed our minds, he
said, can we please have Ward,
and will he travel up tomorrow
for falks. A fee has been agreed.
Such is the trrational world of
football's transfer market. The
night before Brian Clough, the
Forest manager, had jeopardised
the game of musical chairs being
played by his club, Brighton and
Manchester United by withdrawing from the Ward deal; selling
Ward meant that Brighton had the
money to buy the £500,000 Andy
Ritchle from Manchester United,
who in turn had the cash to buy
the £1.2 million Garry Birries from
Forest. And if it now all sounds.
He a happy ending I personallywill not believe it until I see
Rinchis playing in blue and white,
Ward in red and white.

Mr Mullery was in danger of
bringing the game fato disrepute
with his earlier threatmind opinion
of Forest. Ingread he was beaten
to it by Neil McNab, his midfield
player. McNab was found guilty
by an FA commission in London
of just such a charge, banned for
four matches and fined £500. Mr
Mullery, still recking from the
Forest blow at that time, described
it in that old football favourite
as a "diabolical" 24 hours.

Brighton had hoped that insirvideo recording of the incident,
to which McNab pushed Eric Read,
a Bristol referse, during a match
against Norwich City on September
20 would show it to be an act of
dissent rather than yolent conduct. They also had a recording
of Derek Stutham, the West
Browwich Albion left back, doing
the same thing, they claimed, in
another match, but the commission
decided it was not relevant.
McNab suffers the same fata as
Vince Hilaire, of Crystal Palsce. hierarchy. While most reports on Thesday were staring that Johann Neeskens, the famous Duckman of New York Cosmos, had no intension of Johning Forest Mr. Taylor believed the deal was still 15 per cent on. Note so that of Claudio hiarangon, an Argentine playing for Sunderland, who said after appeting for Forest, against Tampa Bay Rowdies on Monday that he felt his future was with the Roker Park citis. During his match the "unpopular." Mr. Clough was given a sharp verball blast from Larry Lloyd when his beeft No. 5 was substituted.

Meanwhile one can only assume that the deals involving Birther, Rinchle and Ward will; move on to fruition. Rittine was computed and was a medical. Birtles must wait on the vectors of fruition when he was a medical. Birtles must wait on the United manages, from Larly to David day tomorrow.

As for Ward, well that is now the third time that Forest laves pursued hom, previously losing increst because of the size of the fee-which now stands at \$550,000—and a shortage of goals from the sprinely Ward, who was discovered by Mr Taylor when he was at Brighton. Ward his scored once this season. On Monday Forest vert remouved to be interested in mother singh but britishing forward how manager, had only for the light.

Another long-rusning punster deal whigh finally foundered yesterday was that of Peter Reid from Bolton Wanderers. Done again the deal was supposed to be rubber stamped yesterday with Dave Thomas moving to Barndan Park in part enchange, but John Barnwell, the Wolves manager, had difficulty financing the ESSO.000 move and added that Bolton's valuation of Chomas was "a million miles from index for med developments."

Taylor Joins Camberdge

another match, but the commission decided it was not relevant. McNab suffers the same fata as Vince Rilaire, of Crystal Palece, for a samilar offence last month and will miss the sames against Stoke City, Aston Villa, Arsemi Ham United and Nerwich City, and Manchester City.

My Taylor is clearly the optimistic one among the Forest capa for £150,000 years and White-

midfield to avoid the errors perpetrated against Norway.

It will be more dangerous to give the hall away in midfield here then it was last month. The Romanians showed through their youth today that they can punish detentive weakness, primarily on the fanks.

While the unfortunate chain of injuries has been a blow to any hopes of continuing the better features of progress made before the European Championships, tall avoid defeat here after beautiful Normay would be a continued.

The Romanians have never

seen under a managerial partnership of the elderly Stefan Kovacs and the recently appointed Valentin Stanescu, leading to a 4-3 aggregate victory over Yngodavia in the Ballan Cup finel and a 1-1 draw with Norway last month.

who provide six of tomorrow's.

ECPACHED DESIGN.

# Unknown quantity trouble witless England B became more frustrated, they shot from longer range without hitting the target very often. Butley was sever troubled again, and after Suthan's goal was often a distant speciator. Mausser made some tidy saves but only Regis, put save by a detensive error shortly before he came off. Barnes and Ward were specially threatening. It is hard for players to adjust be marches such as this particularly an age when so much stress is placed on teamwork. There is a tendency to try and make an individual impression but one of the less flamboyant players.

In what was essentially a side in what was essentially a suc-show to the main international event of the week, England B lunged to an unconvincing victory over the United States at Old Trafford last night. The only goal of the march came from Statham, a full back, after 51 minutes. Armstrong's cross canoned off Armstrong's cross cannoned off Di Bernardo and Keough end looped up, inviting a simple header from Statham. Although England had as much possession as they could have desired, they had neither the wit nor the invention to make much of it.

The North American Soccer-league relies heavily on imported players, so this side was some-thing of an unknown quantity. One day, perhaps, American players may take over their own league but it seems that stage is some ears away. It was soon obvious that England would have to make most of the running, for the most of the running, for the United States, on tour as a pre-raration for their world cup qualifying matches, packed their inced a variety of arm locks and

shirt tugs.

England did not show much cohesion although Osman forced a good save from Mausser when he headed in a 'corner from Barnes, he West Bromwich winger then decided to take matters into his own hands and set off on a series of lengthy dribbles, one of which finished with a weak shot in full flight, Barnes is an exciting player, but his intentions are not always easy for his colleagues to anticipate. As England.

# Midfield must avoid errors made against Norway

Burnarest, Oct 15

England's second World Cupqualifying group match against.
Romania here tomorrow will be
approached with a team closely
resembling the side who best
Morway 4—0 at Wembley last
month. It is difficult to argue
with such logic even when there
is no comparison between the two
takes.

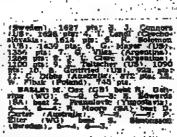

is no comparison between the two tasks.

Ron Greenwood; the manager, has decided against recalling the experienced Coppell and Cherry and persevares with the two players who won their first, cape against Norwey. Gates and Rist. The only changes from that match are in goal, where Clemence takes his turn; at right back where, a little surprisingly. Neal is recalled to replace Anderson who is injured; and in ettack. Birtles wins his third cap because of the absence in the forward line of Martner. The whole selection has been dictated by the injuries that have also deprived England of Keegan, Francis Wilkins and Brooking.

Birtles has not bud a comfort able introduction to international football. He came on as substitute for Johnson against Argentina last able introduction to international football. He came on as substitute for Johnson against Argentina last May and after missing the home internationals because of Nottingham Forest's European commitments was then thrown in the deep end against Italy during the European Champloming, only to be withdrawn in the second half. In hindsight England must now regret that Birtles was not given more opportunities has not played senior football for the last 10 days in which his proposed transfer to Manchester United has been under negotiation. Mr Greenwood said he hoped Birtles would be mefit from his hunger to play a match. Be that as it may, the more relevant areas of doubt tomorrow, particularly in view of the under-21 team's 4—0 thresting today.

in a flutter of expectation. However, there was an underlying ever, there was an imperiying mood of despondency and disinterest before this season began and this disanchantment was not dispelled by England's performance in what should have been a comfortable World Cup qualifying match with Norway. Today they face a more testing assignment in Romania with public confidence as well as World Cup roints at stake. points at stake.

points at stake.

The pessimism, although widespread, is not shared by everybody. Bobby Robson, the manager
of ipswich Town, the league
leaders, feels that the game in
this country needs only to produce
players of better technical ability.
The irony is that Mr Robson's
assertion of confidence contains
the essence of the case put by
the detractors of English football,
namely that there are not enough the detractors of English Football, namely that there are not enough good young players coming through to international level. What happens to all the successful England youth teams and even the promising schoolboys who do not reach senior international level?

little less sharply defined.

Tommy Colsman is a youth coach with Arsenal; Roger Morgan, a former Tottenham Hotspur winger, now works at Tottenham Sports Centre. Both work primarily with footballers of school age and they agree that the problems of the full international side can be traced to this level. But Coleman is quick to attack the idea that professional clubs deliberately crush flair in their artempts to a that protessional closs centrely crush flair in their artempts to movid young talent into utilitarian ream requirements. He points out that players are 14-years old before they can become associated schoolboys with league clubs and that often the bad habits are already important.

are the men who have access to the cight and nine-year-olds—the managers of the jundor league teams. "The sort of they who turn up with the sponge and oranges holler themselves hoarse, have a great time and know nothing about football. All they're interested in is winning. Those kids might just as well be card-board cut-outs for all they're doing to develop their game".

Fighting English football's Win-at-all-costs mentality

the start of each football

th He would like to develop such a system here and get the eight wear olds away from the influence of what he sees as the higheated, know-nothing amateurs. "We've got a wonderful stadium at Highbury which is desolate for most of the week. If we were allowed to have open house for those kids on a Sunday I guarantee they would learn more."

Rosee Morean would contains.

Roger Morgan would certainly that often the bad habits are already ingrained.

The real culprits, Coleman feels, are the men who have access to the eight and nine-year-olds—the managers of the jumor league player, he has the eight and nine-year-olds—the managers of the jumor league players. He fears that they could teams. "The sort of guys who turn up with the sponge and pick up more bad habits than good.

the demands of an English season, players with thair are something of a luxury.

It is all very well to point the finger at the win-at-all-costs smilet of the manufacrs and administrators of the manufacrs and administrators of the manufacrs and administrators of their protessional contemparts? The league clubs set the standards and when the preventing mentality at the highest level is so blatantly bound up with the avoidance of defeat, it is should come as no surprise that the younger talent available is coming increasingly to resemble a parody of all the worst aspects of professionals should work in tandem with the amateurs and go first no schools or youth clubs to meet young players. In this way there would be less dand more chance of evolving an infinance working relationship. In

# Hockey -England to visit Australia in cup preparations

By Sydney Friskin England will undertake a lon week tour of Australia in Angonext year as part of their prepartions for the World Cup tourn ment to be held in Bombay at it and of that year. This tour no precludes a visit to Zimbabwe ar Reura as originally proposed. The while to Australia is to I preceded. by a short tour tour test for English hockey, now in period of resurgence, will be provided in October by the visit to West Germany, the Europea champions, who will play Englan in London.

in London.

The Hockey Association als hope to send an English ream to Methourne in 1982 for a tourne ment which will mark the seventy-lifth ambiersary of the Victoria Hockey Association. The HA hope, by results, to secure place for England among the main nations in the world whice will automatically mean partice parion in the Champions Troph tournament organized by Pakistat 100 the domestic front, a meeting of the Library League to the Library league in response to the HA's call to reorganization,

The engine in question has quite a

In the CSL coupé it helped BMW win. the European Touring Car Championship four years in a row.

It was a performance however, only really appreciated by racing drivers like Niki Lauda, Jacky Ickx and Haris Stuck, who discovered how with this engine, they could beat even 5 and 7 litre rivals.

Then, for the M1 racing car, the engine was developed still further So, ultimately, It could produce 800 bip from its six

cylinders. It first raced last year in the Pro-Car Championships But, again, this was a

pleasure restricted to racing drivers like Clay Regazzoni, Nelson Piquet, Jacques Laffite and Alan Jones.

It seemed, however, that it was selfish to restrict such an engine just to the race track.
So a 140 mph road version of the

engine was developed for the 635 CSi coupe.

And its high speed performance is now accompanied by a remarkable low speed docility. If asked to, the vehicle will trickle along without protest at 1500 rpm in any gear, and then pull away cleanly and strongly as soon as you open the throttle.

But its racing origins clearly show

when the car then is flicked, flat-out in second or third, through S-bends so close and difficult that they demand the very best of car and driver.

. The 6 Series Check Control System ensures that the car is able to give exactly that just press the test button before you drive off and seven key functions of the car are electronically checked.

As for the driver, this BMW's biomechanical design makes the most of his skills.

The driving position, for example, can be optimised by adjusting the seat for height, tilt. reach and rake.

And the controls and instruments are carefully sited to minimise the time gap

between reaction and action.

All in all, rather than; being a coupé version of a saloon car, the 635 is very mucha car bred directly out of BMWs race track experience. (Witness the fact that a 635 has already won the first rounds of the 1980 European Touring Car Championship at Monza and Vallelunga.)

Alaş, its an experience no more than 595 people in Britain will be able to enjoy in 1980.

Our apologies: but we can't make our 635 CSi any faster.

I take it that the Ireland, or at any rate that they Irish laws do not make it an

to take part in homosexual practices, even (as the English practices, even (as the English law now has it) with a consenting adult in private. In other words, the Irish law says, as the 
English used to before it was 
charged, that a homosexual 
who can neither help being a 
homosexual nor by any action on his part cause to be one is laid under an obligation that

does not apply to heterosexuals, which is to live an entirely celibere life. Mr Norris, and presumably other Irish homosexuals, thinks this is unjust, and he is plainly right: I must injust bur dishonest, and barny to boot. And things seem to be made worse, not better, by bringing "Christian morality"

Now I do not wish to be thought an ally of Mr Nicolas Water (Whom God, or Anyone he will accept as an Arbitrator in These Matters, Persuade to Put a Sock in it from Time to Time), but I really do not see why Christian morality should the judge is correct in thinking that. Christian morality views homosexual activity with Christian-moral disease. I am inclined to say that Christian morality ought to bear its repugnance with as much Christian forritude as is can muster.

tan fortitude as it can muster, and not seek to send people to prison for a very long time for having a different view of the matter. It may well be, for all. I know (or Mr Waker knows, come to that), that those who take part in homosexualbut I take it that Mr Justice McWilliam would not maintain

McWilliam would not maintain that whoever deals out eternal punishment needs any help from the Irish High Court, ready though the court might be to land a hand.

"Render unto Caesar the things that are Caesar's; and unto God, the things that are God's." The words are those of one who should surely be regarded as something of an authority on Christian morality, and P have often observed that the speaker was much more. the speaker was much more-inclined to forgive than to condemn; is it the judge's contention that the Irish Constitution is guided by higher standards of Christian morality. than those emanaring, so to speak, from the horse's grouth? To this the judge would no doubt reply, that the Constitution of Ireland is what it is

Justice McWilliam has hairs in his wig. The trouble lies not with the Constitution bur with the judge's idea of what Christian morality demands or, more and worse, what is due to its wishes in the way of suffering inflicted on innocent people. And as a matter of fact, the judge went even further. the judge went even further than that. "Morality", he said, "must be associated with

the morality generally advo-cated by the Christian churches in the country, to which I can only reply: may Allah set his robe on fire, Jehovah his waistoat and Krishna his If is, happily, a long time since a British politician said words to the effect that "This is, after all, a Christian country" (the last one I remember doing so turned out to be

Poulson at the same time); no doubt Irish politicians are still rather more given to it. No doubt, indeed, Irish Bishops are, not to mention a good proportion of their laity. But toleration was invented rather a long time ago, and even the trish ought to have heard of it by now. To try to use the criminal law as a means of making people moral would be a ridiculous, as well as an odious, endeavour even if it were pos-sible to establish an objective meaning for the word moral. If is not possible; and it is vain is to seek a meaning in such weasel words as "Christian morality"—to which, it is worth.

Paisley lays powerful claim.

"We know no speciacle so ridiculous", wrote Paddy G'Macsulay, the well-known co Galway historian, as a sober Irishman in one of his periodical fits of Christian morality." Once, and once only, I managed in conversation, to make a homophobe stop and think about his attitude. I led him to describe, vehemently, the feelings of revulsion and horror with which he regarded the thought of having sexual relations with another man and when he had finished I pointed out that what he had just

Paisley lays powerful claim.

or anybody else thinks it ought homosexual man would feel to be. To that I would reply about, having sexual relations with the Latin for "In a pig's with a woman. (As it happens, eye, Your Honour". A week most of the homosexuals I end with a jug of malt and half know are considerably more a dozen lawbooks would enable tolerant towards, what they with a woman. (As it happens, most of the homosexuals I know are considerably more tolerant towards what they ragard as unnatural behaviour

> Dublin has said that he intends to take his case first to the lrish Supreme Court and thep, if he gets no shitisfaction there, to the European Court at Strasbourg. I hope he succeeds; but really, he ought not to need to go through such a legal pringram's progress. The world is far too full of people who claims to have the Keys of St. Peop hanging from their belts, and who prate about Christian morality as though they invented it; and a dispreportionate number of them seem to live in Ireland. That is Iraliand's misfortune, or one of them, But it becomes a matter of general concern when a stoned usually with a selfjudge feels bound to refuse so
> obviously just and overdue a sions and failure of 1968; and, were detained for a second timeredress of growance as Mr
> Norris was asking for by saying that the Intel Committee of occupying troops.

ing that the Irish Constitution has to be viewed through the prism of Christian morality, that Christian morality is what persons unknown take it to be, and that the persons in question regard it as excluding those who are homosexual not by choics but by nature. (Though I may as well add that if a man were to become a homosexual because he felt like doing so my words, would like doing so my words would apply just as much to him.)

The Irist are not chiefly known for their rigorously logical way of thinking. All the same, it is worth asking them whether they suppose that the quantity of Christian morality in their country is or ever has been noticeably increased by laws which make illegal the expression of homoscital feelings in physical action from supression of homosenial feelings in physical action. They may raply that whether the law increases Christian morality or not is irrelevant. To which I shall reply by asking what business, in that case tile law has in claiming to be bound to would be small reto uphold it.

# The fairy tale Prince in the land of McGoon

"Nor all that long ago, when children were even smaller and people had especially hairy knees, there lived an old man of Lochnagar." A very fair beginning for a children's story, don't you think, especially as it is the author's first effort? Short to

the point, and with a hist of pleasantly silly humour to come. The book is enutled The Old Man of Lochnagar, and The Old Man of Lochnagar, and if ever there was a custom-made best-seller, this must be it. Lochnagar being the mountain that towers above Balmoral Castle, the identity of the author should immediately become clear.

Prince Charles wrote the

Prince Charles wrote the story 1t years ago for his younger brothers Andrew and Edward when he was 20 and finding himself with time to spare aboard the royal yacht. The 40 page story reflects the Prince's well-known love of Goonish humour and is full of wordplay and custard-pie

"After an hour of sinking. he came to the bottom with a dull thud ecause most thuds aren't very interesting and anyway you can't hear much underwater."

The hero of the story also suffers from hangovers and wind, which shows that he is

unfinished for years until four pages of the original manuscript were exhibited at the Windsor Festival last year. Hamish Hamilton, the publishers, persuaded Prince Charles to finish it, and the result is published today. Just to add a further such of class (as if any more were needed; the book has been illustrated by Sir Hugh Casson, president of the Royal Academy, Proceeds from the book will

Proceeds from the book will go to the Prince of Wales' Charigo to the Prince of Wales Chari-ties Trust. Whatever the paying customers may think of it, the word from Balmoral is that those for whom it was originally written were definitely amused.

# Day's night out

The television critics at first were not impressed. "Who on earth would switch on to watch him; this grim uncongenial bespectacled type?" wrote one. But the critics, not for the first time, were confounded. Robin Day has just celebrated 25 years on the small screen, and tonight he will receive the BBC's supreme accolade of a private dinner party with Sir Ian Trethowan; the director-general, even although it was the rival Independent Television News that gave Day his

But immigration control—delays in dealing with applications, standards of proof for accepting is the Home Office's intention them, the treatment of immigrants at the ports and so forth. The only justification for the Home Office not cooperating with such an inquiry—which the chairman of the Commission has specifically stated would not bench upon policy—would be if it did not trust the Commission's position now is that Mr Justice discretion or good intentions. Yet Woolf has ruled that the Come this is the body officially apmission may conduct the pro- pointed to enforce the law on race relations. If the Home pointed out that it is not likely such doubts and it must be said frankly that the Commission's reputation is not of the highest -then it has an obligation to act, and quickly too.

# THE CROWN PRINCE OF NORTH KOREA

From Pyongyang it is reported that the closing session of the North Korean Workers Party congress has approved the appointment of Kim Jong. II, son Kim Il Sung, as fourth of the five-member standing committee of the party's political bureau and second to his father in the ranking of the party secretariat. This is deemed to confirm that the forty-year old Kim Jong II is his father's intended choice as which, the son's appointments were greefed by a well drilled congress may pur beyond doubt an intention on the part of Kim Il Song that has been apparent

for two or three years past.

It is an interesting innovation and without precedent for a communist government. Stalin never gave his daughter. thought as a possible successor. does not seem to have cherished his children particularly, much less considered a son or a daughter as a possible successor. But when the future of communist countries such as China, North Korea or Viernam is being weighed up it is as well to remember that they have behind them a political system, in what has come to be known as the Confucian state, which goes back in the continuous experience of all three countries for many centuries before Domesday

It cannot be expected that less than Half a century of communist Tule has obliterated traditions so

deeply etched in the public mind and in governmental habit, any more than that the authoritarian character of communist rule in these three countries derives role may yet run into opposition simply from an imported when his father finally departs. Marxism, To close observers the lf it takes effect, and if Kim instincts at work come just as Jong II inherits his father's arongly from a millennium or assumption that he alone should more of acceptance of a preside over a unified Korea, more of acceptance of a no aspect of public life lay out- away than ever. side the purview of government was immoral and unacceptable save only when a general consensus existed that the ruling monarch had sunk below the level of moral recovery

By giving so much authority to the one man at the top the. Confuciao system left loopholes 🕽 for skulduggery; when an such a meeting would enlarge emperor's choice of a sen to the political status of the succeed him was contested by current party congress, the first other sons. # LETTERS TO THE EDITOR

### Agenda for next Labour leader

From Mr Jeremy Bray, MP . for Motherwell and Wishaw (Labour) Sir, It is entirely reasonable for some of my colleagues in the Par-liamentary Labour Party to make continuing representations about the form of the wider franchise for the election of the leader of the Labour Party, just as it is for others to insist that the PLP must accept that a fundamental shift bas taken place in the constitution and power structure of the party.

But I hope both groups will bear in mind that when he is elected, the new leader will have to put together the team and the ideas which will effectively oppose this maverick Government, and affer a coherent akernative.

The old dispensation encouraged power broking by the leadership, with the minimum of discussion in the final making of policy. The result is that the right has stayed frozen broadly in the policies and postures with which they had indifferent success in government. The left has-launched its bettering rams at the ramparts without having to produce the practical and coherent policies needed when in power or when campaigning with the prospect of power.

Both must now change. The Blackpool conference demonstrated the vitality and ability within the party, and there are plenty of ideas around for those who will listen.

The ease with which a new leader can unite the perty was demonstrated by Mr Harold Wilson in 1963. Coming in from the left with what turned out to be his rather insubstantial technological revolution, Mr Wilson nevertheless quickly got the party down to work. This time the themes pick them-selves: full employment, wider international cooperation, and party and industrial democracy. The new leader can make a winning virtue

out of these necessities.

The difficulty of the double-barrelled election by the PLP and the electoral college need not prove quite the handicap some fear. Whoquite the handicap some fear. ever is elected by the PLP will have to unite the party. So he must give others the opportunity of demon-strating their paces. He will need the help of all his colleagues. And there-will-certainly be a real con-test in the electoral college which cannot be pre-empted by the PLP. The press and television will not

be interested in anything but internecine attacks until it is all over, but the party and the PLP in par-ticular will be watching and listening more arrentively. Yours faithfully, ...

TEREMY BRAY. House of Commons.

October 13, .

### In defence of liberties From the President of the Liberal Party Organisation

Sir, Events in recent weeks confirm that we can no longer take the conventions and assumptions of our unwritten Constitution for granted. The rules of our public life need

urgent scrutiny.
The Government should convene. all-party talks immediately with a view to setting up a Royal Commission on the Constitution on as broad a basis of agreement as possible. The Liberal Parry stands ready to play a full part in such distrusions. discussions.

There are a number of related matters which are fundamental to fair and democratic government in Britain and which have now become urgent in the light of the threat from the left. They include the composition and powers of the second chamber, a Bill of Rights, the introduction of a fair and representative electoral system, the legal position of political parties, and the relationship of the nations and regions of the United Kingdom, possibly within a federal structure. These are not ivery tower issues. They are basic to the political liberties for which we have battled for centuries in this country. A. responsible government would treat them seriously and act now. Yours faithfully,

RICHARD HOLME, 60 Chandos Place, WC2. October 13.

### Selective charity

From Mr Hallam Horner Sir, When an earthquake occurs, there is immediate international help for the victims. And yet, at a time when there are, for example, grain mountains in EEC countries and millions of tons of world shipping lying idle, millions of people in the third world are starving or near to starvation.

Is this, I wonder, because earthquakes are spectacular and exceptional, whereas starvation is just one of those things seemingly accepted by the richer world on the basis that "the poor are always basis that "the poor are always with us"? And the starved children continue to die. Yours faithfully,

HALLAM HORNER, Hamstone Cowt, Great Gates, Salcombe, Devon.

### Saving historic houses

From the Secretary of Save Britain's Heritage Sir, Geraldine Norman (article, October 7) rightly stresses the importance of keeping Holkham intact and underlines the loss, in artistic and historic terms, that would be represented by the sale of further land or contents. --

Two major steps, however, have been made to halt continuing attrition of this kind: the provisions in the Finance Act of 1980 whereby agricultural land can be placed (avenue from any line). placed (exempt from tax) in a maintenance fund for the upkeep of an outstanding historic house: and the provisions introduced earlier this year which allow con-tents or works of art to be accepted in lieu of tax but left (on loan) in situ providing, of course, that conditions on security, conservation

and access are met. Yours faithfully, SOPHIE ANDREAE, Secretary, Save Britain's Heritage. 3 Park Square West, NWL.

### Vestey tax case and legal principles

on his own share of it.

A more unjust and clumsy law would be difficult to imagine. But instead of taking steps to correct it, the authorities preferred to pre-serve it in this indefensible form and to temper its injustice by demanding from each beneficiary only what they themselves decided

it was this practice of taxing by

# From Professor H. W. R. Wade, QC, stigmatized as arbitrary, unjust and FBA

Sir, Much of the comment on the Vesiev tax case seems to be directed at the wrong target, What nught to be causing concern is the lamentably had legislation and administration which the case It was only by a strained and

unnatural construction of a semes of Finance Acts that the Vestey beneticiaries could be taxed on income which in fact they never received. Even if this was right, as the House of Lords held in 1948, the Acts gave tin Lord Wilber-force's words; "no guidance or indication whatever as to what is to be done if there is more than one individual to whom either sub-section may apply." So each one of a group of beneficiaries had to be held liable to tax on the whole income of the trust and not merely.

administrative discretion, contrary to the whole principle of the rule of law, that Lord Wilberforce

enneessions are employed by the Inland Revenue as a substitute for legislation in many ureas, despite strong judicial protests over several decades. Churlish as it may seem to complain about administrative benevolence, there is a big constitutional principle at stake. Defective Finance Acts passed by the House of Commons should be put right by the House of Commons, at whose door the blame really lies. The U-turn now executed by their Lordships is more than a mere change of mind, it illustrates the change n renai-sance of administrative law in this country which has taken place in the past 20 years. Judges are no longer willing to give appressive operation to detective laws or to accept meekly the rule of unfettered executive discretion. That is why the former Government failed in its attempts to cancel thousands of television licences unjustifiably and to sup-press Sir Freddie Laker's Skyttain. to mention only two instances. The whole picture has been transformed, and for this the public should be profoundly thankful.

Yours faithfully. H. W. R. WADE, Master's Lodge. Gonville and Caius College, Cambridge, October 13,

(Recall that even the fig leaf of the Tonkin Gulf resolution was dropped by Nixon In 1970 and repealed by

congress the next year-without any

influence on the conduct of the war. Regardless of what the war

and its associated controversies did to the political standing and histori-

cal reputation of the presidents involved with it. Vietnam remains

an awesome display of presidential

What of the present? As Mr Jay points out, Mr Carter has exercised

more power than the conventional wisdom acknowledges. (The Ameri-

can Olympic team will not need to be reminded of this.) But again,

failure should not be confused with

impotence. For example, the prob-lem of the hostages in Iran remains

unresolved, a failure, but the pace and intensity of the crisis have

largely been governed, for better or worse, by Mr Carter. Similarly, a new, deeper involvement in Middle Eastern affairs is taking

shape at his initiative. Finally, the

American electorate appears eager to support more forceful leadership, the brief eclipse of presidential power having softened suspicion of

the "imperial presidency". We are likely to see an active, powerful

not is another matter.

2-8 Loudoun Road, NW8.

Yours sincerely. CARROLL DORGAN.

### Presidential powers

From Mr Carroll Dorgan Sir, It is interesting that Mr Peter Jay (October 6) now finds "over-whelming historical testimony to the essential impotence of the Ameri-can presidency," just seven years after Arthur Schlesinger Ir, wrote and warned about an "imperial presidency", the roots of which lay deep in American history. There is much merit in the recent analysis which points out the institutional and practical limits of a president's domestic power. In foreign affairs, however, the reports of his im-

potence are areatly exaggerated.

The historical record, especially in the twentieth century, shows a remarkably unlettered presidency, able to take the initiative in foreign affairs and then carry the rest of the country (not to mention other countries) along with it. Presidents have used their powers as commander in chief of the armed forces. They have exploited their immensely superior access to information. They have negotiated executive agreements" to circumvent the Senate's power of "advice and consent" on reaties. They have waged war and concluded peace, and the War Powers Act (1973) is unlikely to alter this pattern. They have even gotten into the habit of emasculat-

ing their own secretaries of State.

Mr Jay seems to be confusing power here with success. The war in Vietnam was a disaster, but it was

### also very much a presidential war. A sensible nuclear debate

From Professor Ian Pelli Sir, it is a matter for regret that a anti-suclear energy campaign is to be conducted throughout the coming months by students with the backing of the National Union of Students (The Times, October 6). The issue of nuclear energy smerged as one of the most imporproblems of public acceptance at the recent World Energy Confer-ence held in Munich in September. Without nuclear energy the world n neither reduce its dependence on Middle Eastern oil nor the pros-

pect of ever-deepening recession because of the rapidly rising oil This is not to say that nuclear energy has been unfairly criticized; the fudustry has made mistakes and through the sixties behaved with extraordinary complacency when challenged. Nevertheless India, for example, sees the problems of not having available nuclear generated electricity as much more alarming than the problems introduced by nuclear generation. The nuclear debate is of crucial importance to the future of world energy supplies and consequently world peace.

It is, however, not being prosecuted sensibly. Any media coverage, particularly on television, is nearly always conducted in terms of confrontation between convinced pros and anus. They repeat the same dogmas at each meeting, encour-

waters are further muddled by well intentioned liberal-minded sup-porters of wind power, waves and the like who suppose wrongly that nuclear energy could be replaced by these essentially benign renewable resources. In engineering and economic terms it is sadly impos-sible although their use will become increasingly important. It is the element of confrontation

that bedevils and destroys serious discussion of the question; perhaps it stems from our confrontational two-party political system. It is certainly unedifying and unhelpful to see even protagonists of wind power attacking the wave power lobby.

Some way must be found to examine the future of our energy supplies in engineering, economic, social and political terms so that people cooperate to solve the prob-lem instead of persevering in their counterproductive entrenched posithe television, radio and the press with their unrivalled access to the voting public. Yours faithfully,

IAN FELLS, Professor of Energy Conversion, The University of Newcastle upon Tyne,

Department of Chemical Engineering, Merz Court, Claremont Road, Newcastle upon Tyne. October 9.

### Discord in Floral Street

From Dr Charles Darley Sir, Last week, on the first evening of Wagner's Ring cycle at Covent Garden, I positioned myself outside the amphitheatre entrance of the opera house in the hope of purchasing a return ticker for ar least one of the performances. To my assonishment the gentleman who offered me a ticket at the cost price was immediately arrested by a plain-clothes policeman for obstructing the highway. I later learnt that the gentleman in question intended to plead his innocence in court. I therefore offered to act as a witness in his defence and the hearing took place roday (October 9) before the magistrate. In the event my services were not re-

quired as the magistrate found that the defendant had no case to answer and awarded him \$50 costs.

The practice of buying and selling tickers without gain in this way is, in my experience, commonplace among operagoers. It is certainly done in the full knowledge of the opera house staff. The outcome of this particular case may have been satisfactory, but the gentleman concerned was clearly most distressed and inconvenienced by the episode. Hopefully this kind of officiousness will not be repeated.

Yours faithfully, CHARLES DARLEY, Knatchbull Road, Camberwell, SE5. October 9.

### Disabled air travellers From Mrs B. Azario

Sir, Lady Masham's article in the Guest Column of October 9. " Need the disabled put up with this lack of concern?", illustrated the considerable frustration experienced as a physically disabled passenger flying Alitalia.

It should be pointed out that only because Lady Masham was accom-panied, in this case by her husband. was she allowed the privilege of travelting Alitalia at all. Since February, 1980, Alitalia will not carry "non-autonomous" disabled persons travelling unaccompanied. and since I am a widow I generally find myself travelling alone.

Like Lady Masham, I am paralysed from the waist down, unable to walk and therefore come under Alitalia's definition of non-auto-nomous because I cannot get from the entrance of the aircraft to my seat unaided.
It is 11 years since my accident and, although a paraplegic, I con-

panied prior to February, 1980, I fail to comprehend why it is the only airline refusing to carry me unless accompanied. The cost of two tickets is prohibitive at present airline prices. I do wish, however, to express my deepest gratitude to the many

sider myself mobile, very active and

wishing to remain so. Having frequently flown Alitalia unaccom-

other airlines who, by offering com-petent and reliable services on boarding and disembarkation, show an awareness that after disablement comes rehabilitation, together with the desire for maximum independence and minimum reliance on others.

As an Italian citizen, it is purticularly ironic that Alitalia will not fiv me home.

Yours faithfully, BRENDA AZARIO,

Apr 24, Newton Court, Newton Church Street, W8, Kensington October 10.

# A competition for amateur musicians

From Mr Ian Hunter Sir, Since the war, the encouragement given to the young to learn musical instruments has increased dramatically. Whilst Artistic Director of the first Both Festival—then the Both Assembly—in 1948. I presented the National Youth Orchestra

orchestras have proliferated throughout the world and a recent performance given by the European Youth Orchestra under Claudio Abbado at the Edinburgh Festival Bartok's Miraculous Mandarin Suite was a performance matched only by a great orchestra. What becomes of these platers? Probably no more than five per cent

in its first concert. Since then youth

join the music profession and the majority of the remainder, under the pressure of earning a living and bringing up families, gradually lose active interest and become passive music lovers swelling our concert audiences.
I wonder if a stimulus could not he given to the amateur movement

by organizing a competition on a national scale for symphony orchestras, chamber orchestras and en embles, and solo performers. The age range would be unlimited; the only qualifications would be ability and true unitateur status. It should not be difficult to arrance juries in different parts of the country and local radio and television could focus interest on the various heats. The finals would hopefully bring sufficient interest to be held in a Lindon bell, or else form part of an important festival.

Let me say that I know at first hand the pleasure of playing an inscrument indifferently in an amateur orchestra. I would not wish to discourage the second rate whilst encouraging excellence. Many organizations and competi-

Many organizations and competi-tive festivals already exist to en-courage the amateur, but I should like to know whether a competition such as I suggest would find favour. I. remain. Yours faithfully,

IAN HUNTER. Chairman and Managing Director, Harold Holt Ltd. 134 Wigmore Street, W1.

### Miners' wage claim From Mr J. P. Read

Sir. What is one to make of the claim by the National Union of Mineworkers reported by you today (October 10)? You report that, if conceded, the claim would push up the National Coal Board wage bill by 35 per cent a year and bring in train big increases in costs to industrial and domestic

American president next year.
Whether he does a good job or consumers. A closer look at the figures suggests that only part of the facts are brought out in your article. For example, let us consider the case of an unmarried surface worker whose minimum wage would increase from £73.64 to £100 a week. This represents an increase of \$5.8 per cent. However if we look at the effect of the employment levy (National Inaged by admiring supporters. The surance contributions and PAYE

1975

719 1

₹abış

emiliar results of the property of the propert

255

tax) we find the following:
The actual wase received by th worker is only £54.52 a week and the claim would increase this to £71.17 per week—an increase of 29.8 per cent. The reason for the real per cent. The reason for the real increase in wage being lower than that claimed is, of course, the effect of the employment levy. This would rise from £29.2 to £42.5 a week, an increase of 45.6 per cent, and the employment levy expressed as a percentage of the actual wage received by the worker would have increased from £2.5 to £50.7 mercents. increased from 53.6 to 59.7 per cent.
Would we accept that the claim being made is solely to increase the actual wages of the miners or do we think that they are also claiming for an increase in the employment levy as well? I think the former is the case, and, if this is so, are we surprised that wage claims are so inflationary?

why successive One wonders why successive governments have, as a matter of governments have, as a motter of policy been able to increase the employment levy to its present level without opposition. The trade union leaders may think that the answer is to claim increased wages but the above figures suggest that with a policy is decorated to failure. such a policy is doomed to failure.

The answer is to reform the system of texation and this is unlikely to be done in an effective way unless as many as possible urge and demand that those who represent them should deal with this as a matter of urgency.

Yours faithfully, JOHN READ. 1 Golders Park Close, West Heath Avenue, NW11.

### Ancient painkillers

From Professor W. T. Stearn Sir, Dr Bernard Barnett (October 10) rightly contradicts the view that the ancients had no anaesthetic agents but does not mention their most potent one, the mandrake of the Mediterranean lands, in Greek mandragoras, in Latin mandragora.

The first century herbalist Diascarides in his book 4, chapter 76. mentions the use of extract from mandrake root in sweet wine for patients about to he cut or cauterized in order to put them into deep, painless sleep for some hours. The root contains the alkuloids hyosevamine, hyoseine and atropine, all in modern clinical use, and cuscohygrine. The ancient Greeks were well aware of its very poisonous nature and obviously took

care of the dovage. This was probably administered to Alexander before thoracic surgery (see Mary Renault's letter, October 4). Presumably the ancient myll, which persisted to Shakespeare's time, that a manorake torn out of the earth screamed so terrifyingly. as to strike dead or drive mad its uprooter, was propagated by the ancient root-gatherers to protect the plants from excessive exploitation by others and to keep up the price of so important a drug, which

was also used for insomnia Those who wish to enquire further into the fascinating history and folklore of mandrake will find a paper with bibliography relating to this in Biological Journal of the Linnean Society, vol 8, pages 288 to 297 (1976).

Yours faithfully. WILLIAM T. STEARN, 17 High Park Road. Kew Gardens, Surrey.

# Social Focus

# Why prison visitors should get together

The prison system is under constant stress, not to say in almost chronic crisis. An unrelenting increase in the prison population (now at the unprecedented level of 44,000), a prison service contemplating further industrial action and an anxious public acutely aware of an ex-plosive situation in many of our prisons—all these contribute to the persistent crisis.

Amid these multifarious problems that beset the central government's administration of prisons, the one ostensibly independent component in system (other than the infusion of an independent chief tospector as from next January) are the boards of visitors to each or some 125 penal institutions. These boards have recently become the focus of some public attention and the subject of proposed reform. Following this isdirected public exposure a nucleus of members of boards of visitors has formed itself into e group with the nurpose of establishing an independent association to do for 1,400 or so members what the Magistrates' Association has so successfully done for the 20,000 lay magistrates throughout the

The group's desire is to assist in the urgent process of relieving the arress to the hardpressed prison system by acting more effectively as the public's watchdog of our prisons—and so support both prison officers and prisoners in a more ermonious relationship.

Boards of visitors have in one of two forms aince the prison service was: cation of a public service, in 1577. The local prisons in the countries of England and Wales

had no direct say in running of the boards for example, the Members of the prisons. right to cross-examine witnesses rarely meet

Local prisons which received all prisoners directly from the courts were provided with a visiting commutee of justices appointed exclusively from among the magistracy for the area in which the penal estab-lishment was sited. This was a sop to the justices' amour power over prison administra-

prisons (convict prisons had been administered by central government to effect transpor-tation in the nineteenth century) borstals, detention centres and remand centres, the Home Secretary has appointed the boards comprising at least

Since 1971 the two forms have been amaigamated into hoards of visitors. None of these institutions is now exclusirely composed of magisterial members (only about 60 per-cent of hoard members are magistrates. The injection into the boards of ordinary citizens, who otherwise have no direct contact with the administration of criminal justice or the penal system, has led to a greater awareness among members of

main tasks. First, to adjudicate upon the more serious disciplinary offences committed by prisoners. The fact that the ards can inflict a loss of remission of 180 days per offence (and multiples of 180 days arenot uncommon) ergues forcibly for an examination of such a powerful penal sanction.

The proceedings before the diste prospect of the disciplin- problems of major proportions. The mather is chairman of the hoard are private, in which the ary function being bived off and a not very edifying example. rarely meet one another; they, visitors would be seen by the civil servants as a potential pressure group within the present system and hence

> It is one thing to cope with the Howard League for Penal Reform a constant prignt upon the face of the penal scene; it would be altogether another thing to have to dea with potentially like minder reformers operating within the statutory structure of the poison system. Containment of such a body would, it is argued by officers in the prison admini-stration, present a threat to a viable and contented prison administration. If conditions in the prison system were more placed than they in fact are such a development could be taken in the officials' stride.

Yet when a group of members recently proposed the setting up of a national association with the precise aim of fostering that independence and of framing national standards and practices, the Home Office was indifferent; if more actively hostile to such a move. By contrast the Northern to the promotion of just such a national office is supporting a movement.

That agant, many board mem-bers see their future role as the watchdogs of a public increas-ingly aware of what is being done in its name behind high walls. To sustain that role they seek a united, more con-terted effort which a national association alone can promote.

# Iranian inlaid ewer fetches £95,000

By Huon Mailalieu A sale of Islamic works of art at Sotheby's yesterday was chiefly distinguished by an Iranian silver

وكذا من رلامل

for the Indian examples. Colnagh: was burned heavily in the field paying £23,000 for "The mourning of Abaqa's death" and £19,000 for "Abaqa Khan enthroned", two miniatures of the life of Ghengis Khan and his descendant, which were painted in about 1600. Each had carried an estimate of between \$18,000 and \$22,000.

Christie's rootents sale at

at Sotheby's yesterday was chiefly distinguished by an Iranian siver and copper infaid brass ever decorated with lions, the signs of the Zodiac and various inspiring. Khan and his descendant, which institutes an about AD 1200.

Despite a missing bandle, it was apparently in better condition than a comparable ever in the British Museum, and it sold to Ahnan UK Ltd, of London, for 195,000 against a cautious estimate of about £30,000.

The sale made a total of 1927,967, with 9.4 per cent failing to find buyers, which was a respectable result. In such a volatile marker.

Sotheby's also continued its sale of Oriental manuscripts and minimatures of the life of Ghengis Khan and his descendant, which was a respectable result such a volatile marker.

Sotheby's also continued its sale of Oriental manuscripts and minimatures, making a total of £117,946 with only 3 per cent bought in, prophles of arms, the English

Crown, the Irish harp and the Scottish thistle, was bought by a private bidder for \$7,000. The sale continues today.
Christie's South Kensington offered a collection of Meerschaum pines which made a total of £18,965 with 12 per cent bought in, for 69 lots. The vendor had collected them in the 1940s and 1950s when they each cost no more than a pound or two. The most expensive on this occasion was a massive and unweldy example, 8in high and 164in in length, carved with a mother and baby, which went to Kuno Kikuchi at £3,300 (estimate £1,500

to \$2,500).
In King Street, Christie's offered Japanese twortes, making 5140,985 with 10 per cent failing to find buyers, and British and modern prints to a total of 566,459 with 11 per cent bought in.

# Wild rhinos could be extinct in 10 years, report says

By David Niciolson-Lord
The wild rhinoceros will be extinct in 10 years if the present world trade in rhino products, much of it stemming from illicit slaughter and sanuggling, continues, according to a report published yesterday.

Growing demand for rhino born, which has increased in price by 2,000 per cem since 1975, has led to the killing of 2,580 animals each year, equivalent to more than a tenth of the estimated world rhinoceros population. In East Africa slone, numbers have been reduced by mine-tenths in the past decade.

been reduced by time-tenths in the past decade.

The survey, said to be the most comprehensive made into the international trade in rhino products, is written by Dr Esmond Marrin, a consultant to the World Wildlife Fund and the International Union for Conservation of Nature and Natural Resources.

The fund has started a campaign to save the animal. It is trying to encourage the use of substitutes for rhino products and to persuade governments to han to persuade governments to han Dr Martin estimates that nearly eight tonnes of rhino horn are sold each year. Its most signifi-cant use is as an auti-fever drug

in China and South-east Asia, and for making the handles of traditional daggers in North Yemen. With minor exceptions, the notion of its widespread role as a supposed aphrodistac is described as a myth. North Yemen is the biggest single importer of horn and the daggers, known as jambias, can fetch up to 55,000. They are regarded as male status and maturity combols. Imports have

regarded as male status and maturity symbols. Imports have risen sharply in recent years and between 1969 and 1977 accounted for the deaths of some 8,000 rhinoceros.

Dr Martin's research also showed that two thirds of pharmacies in South-east Asia stock medicinal rhino horn. It is regarded as a monorful drug for regarded as a monorful drug for medicinal rhino horn. It is regarded as a powerful drug for fevers, beart trouble, skin diseases and couchs and colds and can cost up to \$7.000 a kilo.

Despite official conservation measures, smuggling means that about half of the rhino product exports of a country such as Kenya are probably illegal.

Although there have been several conservative successes, Dr Martin says that many efforts have been undermined by dishonest officials and the exploitation of legal loopholes.

### Memorial service

Bir Cullum Welch The Lord Mayor, accompanied by Alderman and Sheriff Authory Jolliffe, and Mr Sheriff, David-Inglofield attended a memorial service for Sir Cultum Welch held yesterday at St Lawrence Jewry-next-Guildhall. The Rev Basil Watson officiated. Sir John Welch Watson officiated. Sir John Welch (son) read the lesson, the Bishop of London said prayers and Deputy Sir Kingsley Collett care an address. The Rev Dr Brian Kirk-Duncan and the Rev T. Ashton, Chaplain of Morden College, were robed and in the anctuary. The Recorder of London, the City Chamberlain, the Town Clerk, the Comptroller and City Solicitor, the Remembrancer, the Sword Bearer, and other officers of the City of London were present. Others present inwere present. Others present in-

# Science report

# Schizophrenia: Virus theory tested fection during pregnancy may be harmful to the developing foetns). Cytomegalovirus infections are also dangerous in patients whose immune defences are defective, especially those who have had a

Schizophrems is the most common serious mental disorder, affecting about 1 per cent of squits in all contries of the world, yet its cause remains unknown. One pos-sibility is that the discass may be a delayed response to a virus in-fection, and evidence to support that theory has come from a study at a mental hospital in Washing-ton, DC.

Sixty adult in-patients were studied, all of whom had the generally accepted features of schizophrenia or schizosffective psychosis. The average duration of their illness was 10 years. Specimens of blood and of cerebrospinal fluid (the fluid surrounding the brain) were examined for evidence of carrier virus infections. Identical

tests were carried out on a control aroup made up of hospital em-ployees and parients being treated for drig addiction.
The tests measured the amounts in the blood and the spinal fiuld of antibodies against four common viruses: influenza, smallpox vaccine, herpes virus, and cytomegaio-virus, Compared with the controls, the schizophrenic nations were virus. Compared with the controls, the schizophrenic patients were found to have relatively higher concentrations of adubody in their spinal fluid than in their blood. That difference was most marked in the case of cytomegalovirus; 58 per cent of the schizophrenics had high concentrations of antibody in their spinal fluid.

Cytomegalovirus is one of several viruses that infect most of the population without causing the population without causing any noticeable illness (though in-

especially those who have had a kidney transplantation. The brain damage caused in those patients is structurally similar to that some-times seen in schizophrenics Both cytomegalovirus infections and

**OBITUARY** 

# GEN BRONISLAW DUCH Distinguished Polish officer

the ruins of the Monastery, died in London on October 9,

General Duch's road from the Galician village of Borszcow, near Tarnopol, where he was born on November 15, 1896, to Cassino was a typical epic endured by hundreds of thousands of Polish soldiers during the tragic period of Poland's history that started in 1914. A son of a bricklayer, a mem-

ber of a Polish secret military union, Duch joined in 1914 the Polish Legions that fought Polish Legions that fought Tsarist Russia at the side of the Austro-Hungarian Army. After the overthrow of the Russian Imperial regime the Legions refused to fight revo-lutionary Russia and those Poles who were Austrian subjects were grouped in an Auxiliary Corps under Colonel Josef Haller, When on February 9,

1918. Germany and Austria concluded at Brest-Litovsk a peaco treaty with a puppet Ukrainian government, giving them a Polish province of Chelm, Haller with his corps (which included the NCO, Duch) broke through on February 15 at Rarancza into the Ukraine to join the units of Polish soldiers of the former Tsarist Army there.

Field-Marshal Eichhorn, commander of the "Heeresgruppe manner of the "heeresgrupe Kiev", sent a force against Haller with orders to disarm the Poles. Haller refused and on May 11, near Kanev, a bloody battle took place after the Germans retreated. Realizof his situation in the middle of the Ukrainian chaos, Haller decided to dissolve his corps and make for France by the way of vorthern Russia—then under British occupation. While Haller and the majority of his officers. were moving from Murmansk to France, where a Polish Army was being formed, a Polish batwas being formed, a Polish bartalion was organized at Archangel with Captain Duch in
command. In March 1919 a
local mutiny was quelled "by
the spirited action of a Polish
bartalion and a company of
British infantry as Winston the battlefield.

nor of Burms. He shared with his Chief the grave anxieties and perils arising from the Japanese invasion a year later. When the Ailled forces were being driven back by the enemy from Burms the civil Govern-ment was transferred to the safety of the Himalayan hills at Simia during the three-and-ahalf years before the expulsion

of the enemy was effected.

Born on July 27, 1897, he was educated at Birkenhead school. In the First World War he served on the Western front and leave found the Indian Army later joined the Indian Army. In 1923 he entered the Indian In 1923 he entered the Indian . Civil Service, was gazetted to Burma and did district work . until 1936 when he was appointed secretary to the Fluancial Commissioner in Rangoon. Three years later he retired from the ICS to accept the pressing invitation of the Committee of the Ruyma Chamber of the Burma Chamber of Commerce to become its political secretary. His tenure was a brief one for when the Japanese invasion was approaching towards the end of 1941. Hughes

was recalled to the ICS to be Private Secretary to the new Governor Sir Reginald Dorman-There were affinities between the two men and they showed courage and resource in meeting the calemity little anticipated at the time, of Rangoon being shelled and ultimately occupied by the enemy. There

# General Bronislaw Duch, Churchill put in in The After-commander of the Polish div-ision that on May 18, 1944, con-quered Monte Cassino and Archangel in September and hoisted the Polish flag above Murmansk in October 1019. The Murmansk in October 1919, 7 ve Polish battalion, after a tremonth rest in Scotland, with

greeted in Desember in Warraw by Marshal Pileudeki himself. Included in an infantin thatment the "Mulmanians" Major Duch participated to 1920 in the Polish campaign against Soviet Russia, In Duch graduated from he Higher Military Academy, In 1938, a liquichant-colonel, he commanded an infantry reas-

When the Germons establish Poland he was in command of a division. After the Polich campaign, and the partition of Poland Duch fled through Poscary and Yugoslavia to France where a Polich Army was being reconstructed under General Wladyslaw Sikerski. Appointed general, he communied a direction sion on the Lorraine front. After French capitulation he refused to be disarried by the Germans, dissolved his ments instructing his coldiers to escape to England. For a while Duch commanded a Polish unit in Scotland, During 1941-42 he headed a Polish Military Mission in Canada recruiting volunteers for the Polish Army in the United Kingdom.

Kingdom. In 1943, when the 2nd Politic Corps landed in Italy from the Middle East, joining the British Eighth Army under General Sir Oliver Leuis, General Duch was sent to Italy to compand one of the three his units under General Wladeslaw Ander . The victorious fourth Battle of Cassino was the end of Duch a military career.

After the war he returned to England with the Polish Re-

settlement Corps, Demobilized he headed the Polish Colonia sion looking after the Polish soldiers' graves in Italy. France. Belgium and Holland. He was also cleared chairman

### MR T. L. HUGHES

Mr Thomas Lewis Hughes, Calcuita was instructed to CBE, died on October 13 at the return by air to Upper Burma age of 83.

He served in the First World Commander in Chief, General Alexander with the hangeage. War and in the Second from the Alexander, with the honorary close of 1940, was Private Secretary to Sir Reginald Dormannia of Chief Civil Liaison Smith on his succeeding Six Officer.

The state of the s

Very soon, however, there came a decision to evacuate the Allied Forces to India, Both Sir Reginald and Hughes were reluctant to leave Burma but had definite instructions from Whiteball to proceed to Cal-cutta by air. On arrival Sir-Reginald was directed to set up kel€ton at Simla, and he was accompanied there by a small band of Burmese Councillors. Through-out the three-and-a-half years of his sojourn, Hughes was at the right hand of Sir Regionald, and accompanied several visits to London to con-fer with the Secretary of State, for India and Eurma, the late. L. S. Amery, on the question of ultimate self-government in

Burma. He shared to the full the. Governor's desire for the lixing of a definite date for the transfer of power, her the Prime Minister, Winston Churchill, refused to give anyserious attention to the matter pending the ending of hostil-ities. Shortly before his quin-quennial term expired, the reappointment of Sir Reginald as Governor was announced. He returned to Rangoon accompanied by Hughes, but within a few months resigned on grounds of ill health. It was left. to the newly elected Lahour, Covernment to announce a date for complete Burmese in-dependence which was attained

being shelled and ultimately occupied by the enemy. There was a great exodus of the population almost entirely by the difficult way of the Assam hills, notably of Indians returning to the land of their origin: The trek was marked by a heavy mortality, in spite of the great efforts of the Assam tea planters and of the Provincial Government to alleviare its perils and privations.

Hughes, who was in charge of the hastily organized civil volunteers, remained in Rangoon to supervise the work of demolition before the capital was captured by the enemy. He succeeded in escaping to India by air, but on landing in

### DR ALDREN TURNER

Dr Aldren Turner, FRCP, who died on October 12 at the age of 69, came of a family with a long and distinguished medical lineage in Edinburgh and London. John William Aldren Turner

vas born on February 13, 1911. He went to school at Clifton and then on to New College, Oxford. Here he had a brilliant undergraduate career, gaining first class honours in the final school of natural science and being awarded the Theodore in Southern Command, India.
Williams scholarship in anatomy On demobilization he was (an appropriate reward for a descendant of Sir William Turner the brilliam Edinburgh anatomist), and the Gotch medal in physiology.

For his clinical training he went to St Bartholomew's hospital where he was awarded the Walsham prize in pathology and the Brackenbury scholar-ship in medicine. He graduated in medicine in Oxford in 1935 proceeding to his DM in 1940 having become a Member of the Royal College of Physicians of London in 1937.

He was elected a Fellow of the College in 1946. His primary

Elizabeth Lady Bernard, widow of Sir Dallas Bernard,

his future in this speciality was more or less guaranteed when, after resident appointments at his own hospital, he was fortunate chough to gain one of the much covered resident hor-e appointments at the National Hospital for Nervous Diseases. Queens Square.

During the Second World

interest was in neurology and

War he served in the FAMC ending up as a lieutenant-colonel and adviser in neurology appointed neurologist to St. Fartholomew's Hospital where he remained for the rest of his professional career From 1946 in 1950 be also acted as subdean to the Medical college. At different times he served as an examiner in his speciality in the liniversities of London and Manchester.
A popular teacher in his own

hospital he had a high reputation as a sound clinical neuro-logist who understood the problems facing the family doctors who referred their parients to him, and never lost sight of the human being behind the interesting case.

Ann Lady White, widow of widow of Sir Dallas Bernard, first baronet, died on October 3 at the age of 83. She was the daughter of Sir Charles Addis, KCMG, and she was married in 1922. Her husband died in 1975.

of the Immigration of the Immigration of the Conditions of the Conditio

On July 9, 1979, the commission informed the Home Office that they were embarking on a formal investigation. The correspondence then continued, with the Home Office indicating that it had been mended that those provisions Office indicating that it had been a not entitle the commission to legally savised by the Attorney nature a formal investigation General than the proposed investigation would be possible the purpose of the functions of pose for which the commission was by lew established, and the commission was provided in particular to commission the information that they had received savies to the continuity and the enforcement that they had received savies to the continuity action to the continuity and the continuity and the continuity actions to the continuity actions to the continuity action.

The commission asserted that the aim of the proposed investigation was in accordance with the commission's general duties under section 43, and in particular with their duties to work towards the chimnation of discrimination, and to propose consilive of concern. to promote equality of opportunity and good relations between persons of different racial groups generally. The commission's investigation, would go into great detail, and would examine, among detail, and would examine, among other things, sample surveys of refusal of entry or refusal to vary leave to enter or remain. They would hope to examine Home Office documents, papers and instructions, to interview officials, to hold discussions at ports of entry, and no examine casework records of bodies concerned with the advice and welfare of immigrants.

Mr Scott, for the Home Office, comended that it was inconceivable that Parliament could have intended the Commission to have the power to embark upon an investigation of that sort. It would involve investigating the acts of the Home Secretary himself, immigration officers, police acts of the Home Secretary himself. immigration officers, police
officers, adjudicators, the immigration Appeal Tribunal, the Lord
Chancellor, and the High Court
in respect of the exercise of its
prerogative powers. If the commission were entitled to look into
immigration. It would also be
entitled to look into the working
of the police. Customs and Excise,
and the Inland Revenue.

and the Inland Revenue.

The commission had only extremely limited powers as against the Grown, While they had wide nowers to hold a formal investigation. Their ability to require persons to furnish written information or to attend to give, or all information or to attend to give, or information to attend to give, or information or take. Section 50(1), of the Act enabled the commission to serve a notice requiring information to be given, but, with all exception which was not presently relevant, such holds could done be given, but, with all exception which was not presently relevant, such holds could done be givened where

It was authorized by the secretary of state, or the investigation was one where the commission believed that the person had been guilty of unlawful conduct under the Act. The result was that in the case of the proposed lovestigation, or any investigation into a like subject, unless the secretary of state were prepared to make an order giving pared to make an order giving the necessary authority, the commission would be without teeth and would not be able to get any information from anyone who was not prepared to volunteer it.

The section of the Act which was at the heart of the dispute was section 43. It was necessary to decide whether the proposed investigation was connected with the carrying out of the duties set out therein. In view of the decision of the Court of Appeal in R v Immigration Appeal Tribunal, Expurte Kassam [1980] I WLR 1037). discrimination in the immi-1037), discrimination in the immigration field was not discrimination made indawful by the Act.
It followed that the commission were not entitled to rely on were not entitle section 43(1)(a). On the evidence the commission

could not rely on section 43(1)(c) since, so far as the commission were concerned about the working of any Act. It was the Jumigration Act, 1971, and not the Race Relations Act, 1976. The commission took the view that an inquiry into the control of immigration could be beneficial in promoting good relations between racial groups. It seemed to

ns Lordship that such an investica nis Lorusing that auch an investigation which the commission could properly regard as having that result and as being connected with the carrying out of their duty under section 43(1)(b). Immigration clearly had 43(1)(b). Immigration clearly had a very real impact on race relations. A country which had had no immigration, in consequence of which the persons concerned were sil of the same colour, race, rationality and ethnic or national origins, did not require a Race Relations Act. Immigration control was bound up with problems as to the ability of the United Kingdom- to absorb different racial

groups. Bearing in mind the dual functions of the commission, his Lordship could not accept that Parliament must be assumed to bave intended, as the Home Office contended, that the field of immigration should be a no-go area for the commission.

Nor did his Lordship accept that the consequences of his conclusions. the consequences of his conclusion were as drastic as the Home Office submitted. He had already indicated that unless the secretary of state were prepared to supply them with teeth, the commission

had limited powers to obtain in-formation. That limitation might mean that without the Home Office's cooperation the investigation was not worthwhile. How-ever, if the investigation pro-ceeded, with or without that cooperation, the only result would be that the commission might be able to make recommendations to the secretary of state for changes in the law or otherwise, and to publish or make their report available for inspection. report available for inspection. Such results were hardly likely to interfere substantially with the functioning of government.

His Lordship invited sub-missions as to what, if any, declarations should be granted. The Home Office submitted that The Home Office southers that no declarations should be made as neither party had established its position. Nor did the commission press for a declaration; they accepted that the judgment made it clear that they had power the current of the proposed investigation. to carry out the proposed investi-gation. Accordingly his Lordship refused the declarations sought and awarded costs to the com-Solicitors: Treasury Solicitor; Bindman & Partners.

30 years' service

At a ceremony in the Lord Chief Justice's court Mrs Emily At a ceremony in the Lord Chief Justice's court Mrs Emily Catherine Webb, supervisor of cleaners in the Royal Courts of Justice, received the British Empire Medal. The Lord Chief Justice, making the presentation on behalf of the Queen, said that Mrs Webb had been a loyal servant for 30 years.

schizophrenia are known to be more common in lower socio-economic populations. Those findings are very pre-liminary; but they will encour-age further research into the possibility that schizophrenta has an infective cause. That could hold out prospects for the even-tual prevention of the disease. Source: Lancet, p 769, October 11. Today's engagements

The Duke of Kent, Vice-Chairman of the British Overseas Trade Board, visits the Motor Show at the National Exhibition Centre, Birmingham, 10.30, and addresses the Birmingham Chamber of Commerce at lunch, 12.40. The Duchess of Kent, Patron of Age Coucern, opens three new

Communist returns From The Times of Saturday, Oct 15, 1955

From Our Own Correspondent
Sonn, Oct 14.—The vigil at the
camp in Friedland where German
prisoners from the Soviet Union
ste received is being enlivened by
the unheralded arrival of trains
and by the interest of seeing
whom the Russians will have seen
fit to include in the groups of men fit to include in the groups of men and women that they are releasing. The arrival early yesterday morning of 600 persons who had been expected first earlier and then later was followed last night by the unforeseen arrival of a train bringing 26 men. Among them was Herr Kurt Müller, a former mem-ber of the Bundestag and at one ber of the Bundestag and at one time deputy chairman of the German Communist Party. Herr Müller disappeared in March, 1950. Two months later Berr Renner who was then chairman of the Communist parliamentary party in West Germany, said that Herr Muller had been deprived of his office and expelled from the party.

# IN BRIEF

# Mr Jenkins defends EEC steel quotas

Mr Roy Jenkins president of the EEC Commission, aggress-ively defended the Brussels decision to impose compulsory production quotas on the Nine's steel industry when he faced the European Parliament in Stras-

bourg yesterday.

The Commission has responded to what Mr Jenkins called:
"a manifest crisis." by somediately invoking article 58 (2) of the EEC's treaty, which empowers it to start establishing production quotas, although Wast German producers are still libbing.

jibbing.

Mr. Jenkins said the quotas would be calculated by applying to all EEC steel companies a single rate of reduced produc-tion, different for each class of product. Consequently, the curback would ensure that the weak were not overwhelmed by the strong and "slumping de-mand is not exacerbeted by

riumping prices."

He added: "It is certainly not our purpose to create an artificial shortage of steel, the effect of which would be only to add to unemployment and disrupt steel consumers' supplies"

He repudiated the suggestion that the policy implied incipient

### Hallmarking

A 57 per cent drop in the ecorded by the Assay Offices, iuring the last three months, nut there has been a marked ncrease (140.6 per cant) in the number and weight of platinum wares hallmarked during the same period.

### £15m gas plant order

John Brown has been swarded a contract by BP Petroleum. Development to prepare plant for a ms treatment plant at Kinneil, Grangemouth, to handle products from the South Brae oil field. The installed cost of the plant is put at £15m.

### Licensing praise

The licensing procedures introduced under the Consumer redit Act were proving acreasingly effective against raders who failed to maintain tigh standards in the consumer redit industry, Mr. Gordon Borrie, director general of Fair Trading, seid yesterday.

# Yarrow accepts £6m but fights on for improved compensation

By Rosemary Unsworth Yarrow, the boilermaking and engineering company has accepted the Government's offer of 15m compensation for loss of its shipbuilding subsidiary which was nationalized three years are

three years ago.

An offer of £25,000 also bas. An offer of £25,000 also has been accepted for a small subsidiary. Yarrow (Training) But the board made it clear that in accepting the Governments "final" offers it would continue to fight for more compensation, possibly through an application to the courts under the European Convention on Human Rights.

Yarrow also told the Department of Industry that it would continue to seek redress on the political front by trying to win changes in the compensation terms laid down by the Aircraft and Shipbuilding Industries Act 1977.

creat and Shipbuilding Indus-ries Act 1977.
So far, the Government has refused to builze, although Sir Keith Joseph, Industry Secre-tary, previously described the terms offered by the last Lab-our Government as agrossly

mafair Mann, Yacrow's fin-ance director, said that although there were no precedents for Yacrow under the European Convention, the charter ack-nowledged that confiscation of property without prompt, ade-quate and effective compensa-tion was in its rank.

Yarrow, which has been one of the most voriferous oppon-ents of the terms of nationaliza-tion, has received 22.25m com-pensation already and the balance of 53.75m; will be paid through the issue of Govern-ment stock with interest back-dated to the vesting-date, July 1, 1977.

shareholders with the report and accounts for the year to June 30, 1980.

Yacrow was advised that if it had taken the compensation issue to arbitration there was issue to arbitration there was no guarantee that any award would exceed the Government's latest offer, and there was a risk that the figure could be lower. Arbitration also would have meant further delay in Dayment of the money.
One of Yarrow's main objec-

One of Yarrow's main objections is that the compensation was based on a theoretical value placed on the subsidiary, which was not a queted company, in the six months before Labour took office in February 1974. As a result £12m in post-tax profit accrued in the three year period between 1974 and nationalization in 1977 was not included in the compensation.

included in the compensation calculation.

Compensation for Vosper's shipbuilding interests was issued yesterday in the form of £4.25m of 10 per cent. Exchequer of 10 per cent. Exchequer of 50.83 after the company accepted an offer of £6.6m compensation a week ago. Vosper also is planning to pursue the matter, possibly in the the European Court of Justice Strasbourg. Strasbourg.

In August, GEC and Vickers agreed to accept a total of £95m as compensation for the nationalization of their joint subsidiary. British Aircraft Corporation. Both groups indicated that they would continue to fight for better terms. They claim that BAC was worth £28km on the was worth £200m on the day it was vested in British Aerospace.

# ICI closes two plants

and cuts 4,000 jobs

Continued from page I
These will range from special finish polyesters for fashion fabrics to nylon cord for jet aircraft tyres.

Closure of the Kifroot polyester yam plant and the Ardest nylon salts factory, and redundanty payments alsowhere will cost about 530m.

Despite poor sales, KII has invested about £100m in its fibres 5traness over the past five years, and the present reorganization would ensure that it was the most sighty manned productive in the manned productive in the world."; Mr John Harvey-Jones, a deputy chairman, said yester-

Trade union leaders were given advance warning of possible job cuts at a confi-dential meeting at ICPs Milldential meeting at ICTs Mili-bank headquarters in London last week. But they reacted angrily to yesterday's news. Mr Roger Lyons, national officer of the technicians union, ASTMS, condemned the action as "heartless". He said the present crisis, stemmed directly from the failure of the Covernment and the European Commission to stem the avalanche of imports from the

United States.
The largest of the chemicals unions, the General and Municipal Workers, also condemned ICT's decision. Mr David Warburton a national industrial officer of the union and chair the control of the unions. man of the ICI joint unions, said: "ICI has behaved disgracefully. We have known of the problems of fibres for three years and have continually asked ICI to meet us to discuss the implications for the United Kingdom plants. Instead the

company has made a decision and just told us of the hatcher job." There was bitterness, too, from the centres to be shut down. The Scottish TUC said the Ardeer closure would bring unemeployment in the area to

Abbey National's reply to fiscal year. Mr Clive Thornton, the Government's attempt to siphon off-f1.500m from the Small savings market, mainly building societies, is being launched today.

Abbey, the second largest building society in the country, building society in the country building society in the country, building society in the country building society in the country, building society in the country building society in

government issue. The age qualification is the same and the maximum bolding is £3.000. The main difference, of course, is that the Ahbey bonds

are not indexed. They are a six-year contract with a rate of interest guaranteed at 3 per cent above the recommended rate, currently 10.5 per cent, and a 3 per cent bonus at the end of six years.

The 13.5 per cent (tax paid) rate of interest on Abbey's bonds grosses up to 19.29 per cent for basic rate taxpayers. The current rate of inflation is just over 16 per cent.

Savings vesterday announced details of the second index-linked issue of National Savings sale on November 17.

There is a surprising change. Unlike the first version, there is no guaranteed manurity bonus after five years, Instead the Treasury says it "may pay an additional amount over and above the RPI-linked increase if they consider it appropriate

The decision to abandon the 4 per cent bonus built into the old issue reflects partly the view that after a 100 per cent inflation-linked increase in the value of the first granny bonds, the 4 per cent bonus seemed little more than a cherry on top

Of the £1,500m that the Government hopes to raise from

5750m is expected to come from building societies. The Abbey National, with nearly 2 million investors in the 60-plus age bracket, views its own bond as a defensive measure.

The terms are attractive, in particular the let-out clause which allows elderly investors to withdraw their funds at any time during the six years with no more penalty than a return to the normal interest rate

There is some dismay in the building society movement at the Abbey's stance: it is seen as aggressive rather than de-fensive. If the Abbey's efforts are rewarded and the Government's gud spiked, there are fears that the response from the Department of National Savings will be to lower the age limits for index-linked savings

"Indications have already been made that there are insitutions willing to lend us the necessary capital", Mr Timothy Knowles, HTV's financial director, said yesterday. The company, which has served the West Country and Wales since 1968, must reach

from the City,

agreement with the proposed Welsh Fourth Channel Authority on its plans as well as regain the eight-year franchise against the opposing hid of Hafren, a rival consortium. Planning permission has been granted for the Culverhouse' Cross centre and Harlach is

tory financial terms are agreed for its providing programmes on the new Channel Four. The centre will take 15 months to The Welsh Fourth Channel Authority, in consist of 40 members, has yet to be appointed and will come under the

ruling of the Secretary of State for Wales.

Harlech at present provides seven hours of Welsh language programmes a week. Under the

Broadcasting Bill now before Parliament and expected to be hours a week of Weish programmes are to be shown on Channel Four in Wales. The Government has indicated

that 10 hours are to be allocated to the BBC, its extra two hours n week to be financed from an increased licence fee, and 12 hours to independent contrac-Mr Knowles said that the

60-acre Culverhouse site was designed to cover all requirements for existing programmes and the extro five hours a week. Mr Ron Wordley, managing director of Harloch, said: "JF we don't get an idea quite soon of the parameters of the financial situation which the WFCA is prepared to go to, we may ready by November 1982.".
The Welsh channel would pay

Harlech on a programme hasis. Costs of producing a maximum of 12 hours a week could run to £20.4m a year, according to Mr Knowles. This is based on estimates of 1979 costs of £1.2m an hour for the year on the existing seven hours and £2.4m per hour for the extra five.

Farlech estimates a peak-time audience for the Welsh language programmes of 75,000 viewers, reflecting the approximate 20 per cent of the popula-tion speaking Welsh. In North Wales this figure is 40 per cent. The Fourth Channel Authority is to be financed by sub-scriptions from all the independent stations in the IEA netentailing of the second of the

South America's vast supply of charcoal turns back technological clock

Steel appeal for Brazil's backwoodsmen

Steelmakers in Brazil are going back to the woods to help fuel their ambitious expansion plans, and fight rising energy costs which threaten to imperil the country's economic growth. Brazil's ample forests provide a ready-made fuel for the production of iron, and already charcoal plays an important role in

fulfilling the industry's energy needs. But byer the next 10 years, Brazil plans to double the output of charcoal ironmaking to 10 million tonnes.:

ingly to the country's 5.5 million square kilometres of forests in order to reduce the industry's heavy dependence on imported and expensive coking coal and

Senhor Henrique Cavalcanti, head of Siderbras, one of the country's leading steel companies, gave delegates to the annual conference of the International Iron and Steel Institute in Madrid an insight into the future for charcoal.

Risignt into the tuture for charcoal.

Brazil has been able to turn the technology clock back, providing thousands of new fobs, as a result of extensive research.

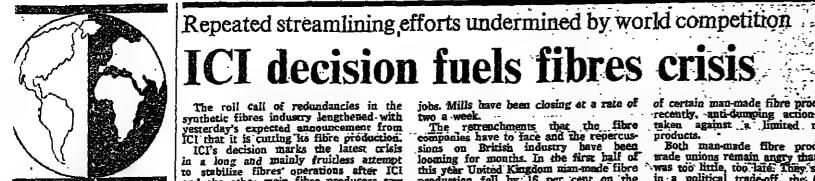

The principal source of charcoal in Brazil is etcalyptus, and traditionally the eucalyptus groves have been managed on Most of the industrialized nations have long since switched from charcoal to coke for feeding into their ever larger blast furnaces to make iron. However, using new techniques and refinements, the Brazilian steelmen plan to turn increases

intensive tree spacing patterns.
Results so far indicate that it should be possible to reduce the tree felling cycle to less than four years, doubling the present volume of wond available for charcoal. At the moment there are about 10 large

integrated ironmaking plants, together with more than 50 smaller producers of charcoal based pig from Last year they achieved an output of about 4.4 million Charcoal iron and steelmaking is com-

petitive in Brazil, and hopes are high that

further development will lead to increased Peter Hill

# Vigerian oil output stumps by 25 pc

Oil production in Nigeria, frica's biggest producer, lumped by almost one quarter month, according to ources in Lagos.

Production has averaged 2.1 nillion barrels a day this year, out the sources said that daily production fell to 1.6 million parrels in September, after an earlier slight drop in August to about two million barrels a

day.

Nigerian industry sources said the production cut had two said the production is was due to a surplus of oil on the world market, and then sconomic problems in Eastern Europe led to a drop in exports to that part of the world.

The Nigerian National Petroleum corporation, which has a 60 per cent interest in most operating companies, was the only production company to have cut back voluntarily on

Meanwhile the United States has maintained import levels at about one million barrels daily, or roughly half of Nigeria's output.

# ICI decision fuels fibres crisis

The roll call of redundancies in the synthetic fibres industry lengthened with esterday's expected announcement from ICI that it is cutting his fibre production ICI that it is curting its fibre production.

ICI's decision marks the latest crisis in a long and mainly fruitless attempt to stabilize fibres operations after ICI and the other main fibre producers saw their expectations of steady growth and rising consumption destroyed by the 1973-74 energy crisis.

The board of ICI has agonized for years over the problems of making profits from fibres only to see successive attempts at streamlining undermined by further rises

streamlining undermined by further rises in oil prices and increased world competition. ICI last achieved profit on

fibre production in 1974.

The most recent adversaries to emerge have been the American fibre producers.

They have taken advantage of favourable exchange rates and lower feedstock and European industry.

Efforts to coordinate formally European

rationalization failed and against the background of a crisis-torn European industry, ICI and other United Kingdom fibre producers have had to cope with the deepening problems of the British

So far this year more than 60,000 jobs in the fibres, textiles and clothing industries have been lost through plant closures and streamlining. Courtaulds, ICI's tradicional rival, made heavy cuts this year which have already lost 20,000

jobs. Mills have been closing at a rate of

The retrenchments that the fibre companies have to face and the repercussions on British industry have been looming for months. In the first ball of this year United Kingdom man-made fibre production fell by 16 per cent on the corresponding period of last year. Second quarter deliveries fell by nearly 20 per cent compared with the previous three

These falls in production simply continue the trend that had been apparent for more than five years. The market did not grow although imports of both fibres and clothing rose sharply.

But because of manpower cuts and plant closures productivity has continued to rise.

However, improvements have been insufficient, especially under the tough monetary policy.

The continued strength of sterling is seen by many as a barrier to the industry's

seen by many as a carrier to the success; a future competitiveness and perhaps a threat to the survival of the industry. While exports have been generally main-tained, they have been largely unprofit-Losses in the Western European man-

made fibres industry are now expected to exceed £400m this year. Industry sources but the deficit of the Italian Montetibre at about £130m.

Earlier this year, the European Commision approved unilateral action by the Juited Kingdom simed at limiting imports of certain man-made fibre products. More recently, anti-dumping action has been taken against a limited number of

Both man-made fibre producers and was too little too late. They suspect that in a political tradeoff, the Commission moved far too cautiously for fear of provoking retaliation by the United States on steel exports from Community

Europe's largest fibre producer, Emka has cut its fibres workforce in West Germany and Holland by 12,000 since 1975 in an attempt to move into profit. The pattern has been followed by other fibre

Despite the severity of the cutbacks which will cost the group some F30m, ICI can not say how soon it will turn the The group believes there is between 25

and 30 per cent overcapacity in Europe and its decision to halve polyester yarn capacity to 50,000 tonnes a year will make little dent in that.

Much depends upon how and when demand picks up and on whether the threat from the United States recedes. A revival of the American domestic market may reduce the pressure on United States producers to export to Europe.

ICI is basing its calculations on pessimistic forecasts. Recent history suggests

# BL go-ahead for £90m | Merger plan new Jaguar project

By Peter Waymark The board of BL has given an important vote of confidence to Jaguar by approving the concept of a new range of luxury saloons to come on the market in the mid-1980s.

A detailed programme for the car, code-named XJ40, will go before the board at the beginning of next year. The project is expected to cost

about 12 to 15 miles per gallon.

The first stage in the XJ40 project will be a new sixcylinder engine. Though smaller than the present 5.3 litre and 4.2 litre units it is being designed to give similar performance and refinement with

the car, code-named XJ40, will formance and refinement with go before the board at the beginning of next year. The project is expected to cost around £90m.

Jaguar has managed to convince the BL management that there is still a case for producting a new luxury car, despite the rising fuel prices. Current Jaguars are among the thirstiest cars on the market with the accent on good saving weight

# Fodens to restart under **United States control**

Fodens, the ailing Cheshirebased truck maker which went into receivership in July, be-comes the latest British motor industry company to fall under the control of an American

group.
Paccar, the fourth largest. United States heavy truck manufacturer, bought Fedens' assets and renamed the company Sandbach Engineering. The United But at the momen States company signed the 30 trucks in stock agreement with Cork Gully,

and it intends to resume manufacture of the Fodens range.
About 1,600 employees at the Sandbach plant have been made redundant after the Fodens col-lapse. Paccar said it would retain the remaining 350, most of whom are production workers. A management team of seven

Americans is to take control of the plant which is capable of producing 5,000 trucks a year. But at the moment it has only 80 trucks in stock. Another 90

# for Co-op depends on vote

By Derek Harris The merger of the troubled London Co-operative Society with the Co-operative Retail Services of Manchester has been agreed and will become effective next January if the ondon society agree.

Meetings of the society will be held in November and December and will discuss a recommendation that the merger should go ahead. The move was sought by the society after four years of losses were topped by fresh trading problems.

The merger would create the largest single retail cooperative in Britain, with sales of at least

E800m a year.
Co-operative Retail Services, already the largest retail organization in the cooperative movement and noted for its efficiency, started as a rescue service for retail societies in difficulties. If the meetings agree to the merger the CRS is expected to discuss detailed future strategy for the London society at the end of the year. One of the earliest decisions

will be whether to proceed with two hypermarkets costing up to £50m which the society was planning. The society wants to build one of them at East Beckton in the London Borough of Newham on a site owned by the local authority. The society also wants to develop its own site at Oakthorpe, in North Loudon The two hypermarkets are expected to add around 170,000 square feet of selling space to the society's outlets. The London society ready spent more than £15m in ready spent more than 5.5m in the last 16 months since Mr Frank Doherty took over as chief executive. Mr Doherty has retained his previous job as chief executive of the Greater Nottingham Society and he is expected to return to work there if the merger goes through.

Mir Frank Doherty: weeding uneconomic stores,

gone on a refurbishing programme for outless turned into price-curing units where no dividend stamps are given and where sales have been sharply increased. This has improved the society's sales growth although probably at the expense of margins, at least initially.

Mr Doherry has closed nearly Ar Donerty has closed bearty.

120 food shops, breaking the hack of a closure programme ser up to weed out uneconomic units. But there could be some further closures and some capitalization on properties which have an actual market value of probably £100m. . .

The London society's losses last year stood at £19m on a turnover of £230m, although per cent against the 3.5 per cent of the previous year.

give the London society as keep its development pro-gramme going. Further development sites have been decided on and the society is now building its first superstore. Most of the investment has at Harlow, Essex.

# Delays in issuing safety certificates likely to end

Delays in issuing safety certificates without which a wide range of specialist engineering equipment cannot be sold equipment cannot be sold should be largely cleared by the second quarter of next

This was claimed yesterday by Mr Brian Hill, director of the Bucton-based British Approvals Service for Electrical Equipment in Flammable Amospheres (Baseefa), which issues safety certificates for equipment ranging from flamemotors to microelectronic components.

Delays of up to three years, with a backlog last year of with a backlog last year of some 750 applications, were investigated by the Government, and Baseefa's staff complement has since been brought up to strength, with some of the applications contracted out to private testing facilities.

Total backlog of applications is now down to 550, but Mr Hill also argued that, of these, 300 could be accepted as being part of the normal pipeline.

this figure, be able to offer com-panies on prime certificates for new equipment that 50 per cent of applications would be pro-cessed within six months. On subsequent variation certificates, which involve less work 60 per cent of applications should be dealt with in two months, Mr Hill said. But he said that, with certificates on some larger motor applications, there were still excessive

delays".

Mr William Simons, chairman

Mr Electrics of the Committee for Electrical Equipment in Flammable Atmospheres at the British Electrical and Allied Manufacturers' Association, said that because of frustrations over Baseefa's delays, British manufacturers had increasingly turned to had increasingly turned to foreign testing stations for cer-tificates. But companies which valued the high international standing of Baseefa's certifica-tion would prefer to get British certificates, and a swing back to using the British service was expected.

# Inadequacies of telephone service 'stifle businesses'

By Bill Johnstone

British Telecom has strongly criticized by the Post Office Users National Council for its deteriorating level of service and its delays, some as with repairs.

The council's bulletin, News Digest, also highlights the fact that 500,000 people are waiting to have a telephone installed. Its comments are the latest tween the council and British Telecom that began in March. The council said then: "We The council said then: would have some justification for believing that the Post Office's forward planning had gone completely awry."

According to the council thousands of business users who want to extend their tale-phone installations are "stifled phone installations are "stifled reduction in the backlog in one way or another because orders for lines in London.

of the Post Office's inade

Mr Peter Benton, managing director of British Telecom, assured the council after its criticisms in March that a new eight-point plan to improve the service and modernize the ner-work was in hand and would

soon show benefit.

But in the six months since any improvement in service is very difficult to detect", the council says.

Business users face problems of their own. They have to wait on average 12 months. for telex machines and over six months for even the most basic, PABX (private automatic branch exchange) systems", it

Incentives for booksellers

From Mr Laurence Buans
Sic, The survey on "lost sales" in bookshops by the Book Markering Council (Business News, October 3) seems to imply that book sellers do not understand their own businesses.

The working party it is rereturn is respect of increased sales. The price of books is commanded by the publisher commanded by the publisher, so, unlike many other trades, the bookseller will be immediately restricted, as he cannot absorb publicity and marketing costs in the sale of his books. Therefore, the assumption in your report that the survey will lead to widespread changes in the British book market 1s, in my opinion, unrealistic, The survey's conclusions that there is substantial scope for increasing sales through improved display marketing promotion and selection of stockare even more so. A rend,

their own businesses.

The working party, it is reported, is startled by the scale of the impulse market. Booksellers, dealing as they are each day with members of the public, may take this sudden revalation with slightly more aplomb. In fact, some may wisely ask why it has in take a survey, presumably produced at some expense, to tell them what they know already.

Bookselling, like any other business, attracts different public.

Bookselling, like any other business, attracts different publics and a commercial undertaking will sensibly consider them all in its buying and publicity policies. This firm certainly does so and in promoting books engages in some extremely professional publicity, including the production of a widely read and admired newspaper.

paper.

But our approach is an entirely individual one. It might not work for all. Other booksellers no doubt use different methods no doubt use different methods according to their stress, the time of year and the economic climate of the motion. It is, however, reasonable to suppose that most would accept that there are limits to marketing and publicity, particularly for the book market.

Bearing in mind that many

Bearing in mind that many people will never enter a bookshop however skilful the sussive techniques, and

# State head

Sir, I am much obliged to Mr Hanson (September 26), Sir Robin Chichester-Clark Robin Chichester Clark (October 6) and Mr John Lid-stona (October 9) for their replies to the question in my letter of September 3 as to why state industries do not appear to have deputy chairmen capable of becoming

chairmen as do most major private companies.

To the kyman it seems rather pathetic that head-hunters have to be employed to search for these paragons of ability who in some cases have not been notably successful. Also, it is a pretty safe bet that somewhere in the passages of Whitehall there is a special department devoted to head-

hunting head hunters.

So much time and money would far better be employed in training up deputy chairmen, who, incidentally, by the nature of things would find

# Interim Dividend

The Board has declared an interim dividend of 0.45p per share ( same as last year) which will be paid on 16th January 1981 to shareholders on the register at close of business on 4th December 1980. The Board expects to recommend total dividends for the vior 2.25p, subject to the outcome of the year as a whole.

Interim Report

The results for the first six months reflect the current proble being experienced in the retail sector. Due to the important eff on our business of the Christmas trade, it is not possible to forec the results for the full year. We are, however, holding our mar share and are well placed to take advantage of an upturn in tra when it occurs.

Acquisition of Outstanding Shares in Hong Kong Associates

Negotiations are at an advanced stage for the acquisition of outstanding 50% shareholdings in Remex Holdings Limited a Century Watch Co. Limited, who have been associates of Tir Products since 1969. These companies are based in Hong Ko and are engaged in the manufacture, assembly and distribution mechanical and electronic watches. Their products are distributed throughout the world, and in the U.K., Canada, U.S.A. and Afr the companies have their own sales outlets.

The consideration proposed for the transaction is £4,255,000 be satisfied by the issue of 5,280,000 new shares in Time Produ Limited and £638,000 in cash. On 31st January 1980, the date of the last audited accounts, t

net asset value of the companies being acquired was appromately £10,000,000. Thus the 50% interest now being acquir represents net assets of approximately £5,000,000 The net profibefore tax of Remex Holdings Limited and Century Watch ( Limited for the year ending 31st January 1980 amounted £2,600,000. Half of the profits and of the net assets of the associate have been accounted for by Time Products on an equity basis.

No changes in the existing Board of Directors and executives

the Remex and Century groups are envisaged as a result of the acquisition. There are no directors' service contracts in force. It anticipated that a circular to shareholders, giving full details of t transaction and seeking their consent to an increase in she capital in order to implement the acquisition, will be sent out in t middle of November.

Time Products Limited

After locing money on fibres since the 1973. 74 oil crisis rendered much of the capacity increase of the late 1960s redundant (£104m and at the trading level in 1974-79 and following first half losses of £38m probably another E80m this year) ICI is going in for even more radical surgery after the softly, softly approach to its fibre problems over the past five years.

For such a vertically integrated group, a complete withdrawal from fibres is probably Us out of the question without doing irreparable damage to the petrochemical divisions. But many observers of the European fibres. scene see the cutting out of significant a capacity as the only solution to losses throughout the industry of perhaps £2,500m over the past few years, particularly as the pressure is growing for a less protectionist multifibre agreement when it comes up for renewal next year.

All the same ICI shares breathed a sigh

of relief that the group was at last biting the bullet, rising 4p to 330p. For a group of TOTS size the financial implications of the slimmed-down fibres operations, while damaging, are not as serious as the bald figures might suggest. Fibres accounted for around a tenth of the £4,453m capital employed last year and just under 9 per cent

The two plants to be closed-Kilroot and the Ardeer nylon intermediates plant-cost a total of £70m when built in 1962 and 1969 respectively.

Reorganization costs elsewhere in the business are more difficult to gauge but even in the plants being closed working capital is only £15m or so all of which has presumably been written down to realizable

So the main impact on the profit and loss account is likely to be the redundancy costs of perhaps £30.£40m, most of which will be taken above the line given ICI's conservative accounting. The group is still deciding how much of these costs will be taken at the third quarter and how much at the year-end. After these costs ICI-looks as though it will. be lucky to make much more than £300-£320m against £560m last time.

The real question is whether ICI is right in assuming its fibres breaking even in 1981 given the increasing penetration of United States imports and the failure of European producers to cut back capacity following the EEC's move to break the fibres cartel. What is needed is for all European producers, especially the Italians, to follow ICI's example.

Assoc Biscuit

### Pushing up market share

Demand for biscuits has slumped and branded biscults have been hit worst of all. Associated Biscuits is particularly exposed to this part of the market; and has countered retail destocking and increasing competition in a falling market by going for a larger share rather than larger profits taking it up from 20 to about 23 per cent of.

That combined with much higher, " tem-' stocks and borrowings, when inerest rates are high, saw AB's interim pre-tax profit slide from £5.42m to just £1.25m in the first 36 weeks of this year. Interest costs doubled to £4.6m.

The last few months of this year should he better, with Christmas approaching and lower stock levels. Even so, full year profits are not going to he above film and probably nearer £6m, against £11.6m last

The Snack Foods division's strong performance provided some cushianing to United Kingdom profits, though a hefty advertising campaign creamed off some profits. A price increase has kept up margins on crisps and nurs. But group United Kingdom trading profits slipped £680,000 to £4.18m. More serious was the £1.2m decline in overseas profits to £995,000-largely due to a £1m loss from the German confectionery company Dickmann, Two of its four factories have been closed. France also made a small

The stock market was disappointed by all this, and the shares fall 9p to 63p where, assuming pretax profits of £6m, they trade-on a p/e ratio of about 15. AB wants tomaointain 1980 dividends at last year's levels indicating a yield of 10 per cent. That should keep the price from sliding much further— it has dropped nearly 30p since the start of 1980-but on trading grounds there is little cent a year, plus 4 per cent initial.

speculaive interest can be expected due to Rowntree's 20 per cent stake.

9 Clive Discount, whose chairman is Mr Nicholas Chamberlen (below) and which last scar came a cropper by not taking timely action shead of November's sharp rise in interest rates, now looks well set on the road to recovery.

. That much is implied by the fact that it is paying more than a token interim dividend for the six months to the end of September. The dividend of 0.7p gross a share could

now be followed by some modest restoration of the final at the end of the year. That of course, assumes no major upset in the

The relatively stable interest rates of the past six months have been generally helpful to discount houses. Clive in particular, after last year's difficulties needed a quiet period where not too many risks had to be taken. Last year's collapse cost the company £4.16m at the disclosed level and probably

some £7.7m at the gross level after taking £3.5m out of reserves. Clive ended last year with a £188m book. After the £2m rights issue in July which could add another £60m to assets, since the multiplier on capital for discount houses is 30, Clive could then hold at least £250m in assets.

Given a favourable environment and fal ling interest rates Clive could over the next 18 months or so; substantially restore its capital base, the stated intention of the board. It will be helped by tax losses of 4m. But of course, many uncertainties per-

sist.
The main point is that much good seem already discounted in the sector. Virtually all the shares are at close to their highest levels of the past 10 years. The one where a substantial recovery potential still remains is Clive, so recovery potential in the shares at 51p could be substantial.

Quilter's new fund

### The price of performance

After gold fever earlier in the year and the insti-iraq war now, stockbrokers Quilter Histon Goodison, character of the private investor, has rightly identified commodity investment as a service for clients. Hence Resource Fund International, a Bermuda based...open-ended offshore fund which Quilter is sponsoring in conjunction with Heinold Commodities, third largest commodity brokers in the United States.

United Kingdom investors, weaned for years on fixed charge funds, have, however, quite a lot to learn about the fee structure used by American organized commodity funds: Performance fees are not a commonplace over here and it may come as a shock to read in the prospectus that the investment managements company, Millburn Partners, will; in addition to a 6 per cent annual management fee, he paid 20 per cent of any new capital appreciation (working from a high to high) at each mouth end. Investors, incidentally, who wish to capita-lize an early gain suffer a 4 per cent penalty if they sell within a year.

These fees are in addition to the initial charge of 3 per cent, and brokerage com-missions paid to Heinold, expected to be between 10-15 per cent but could be higher, plus management expenses of up to 1 per cent of net assets. All told, total charges are likely to range from 15-20 per cent of assets, with the warning that they could

Total fees charged by one of the largest Jersey-based commodity funds are 1 per John Whitmore

# Why tougher monetary controls could threaten the overdraft

The overdraft system of banking is a peculiarly British institution—and who would not say that it is a part of the British heritage well worth a preserva-

While the system is in no immirrent danger of demolition. it could yet be threatened with the need for modifications—modifications that could make it: more restrictive for some borrowers and certainly more

The source of this threat lies in the plans of the would-be reformers of our methods for controlling the money supply. More precisely, it comes from those who favour the introduction of a system of "monetary base" control.

At present the size of a bank's business is regulated by a reserve asset requirement. In short, for every 100p of deposits a bank takes on board, it has to a pank takes on board, it has to invest at least 124p in reserve assets (for example, Treasury bills) specified by the monetary authorities. The rest of the

The present definition of re-serve assets is, in fact, no longer considered a good one and is shortly to be scrapped. In future the key figure in terms of assessing the base for a bank's overall level of business may well become the size of the cash deposit that it either chooses, or is required, to hold

at the Bank of England. But whether one is dealing

(or monetary) base is not really the crucial factor. For the banksurply of such base assets de-pends ultimately on the het inancial transactions between the public sector and the central bank on the one hand and the banking system on the

If the net movement is towards the banking system, the supply of base assets will increase, and vice versa. Gren the enormous day-to-day fluctuations in public and private sector financial transactions the unsmoothed ebb and flow of base assets can, to say the least,

However, under the present system, in which the Bank of England acts as a liberal leader of last resort, banks can feel confident that at the end of the day the central hank will make sure that the necessary supply of reserve assets is always available.

That is not to say that the authorities are automatically on to a hiding to nothing. They can, for instance, call for additional cash deposits in he placed at the central hank. But it does tend to mean tas his been the case this summer that once they have chosen a given level of interest rates they are virtually obliged to supply base assets on demand.

It is this approach that advocates of monetary have control wish to see changed. They want the authorities to

lastead, they want the Bank

to concentrate on convolling the supply of the monetary base leaving it to markets to cet the uppropriate level of interest sales and making it clear that hase assets are not autometrically available on decrand on purpose, only at probibitively penal cost.

problems for a bink manager operating an overdrait system. The crisence of the overdraft facility is, ofter all, its flexi-

Figures for overdraft leading and incilities for the entire United Employmenth handing system are not readily available. But the electing hanks evid-ence to the Wilson committee gives some insight into the

clearers had looms outstanding of just over \$22,000m. At the same time, they had also granted overdraft loan and acceptance facilities of £33,400m, of which £18,700m represented overdraft facilities. In turn, half of these latter facilities had been taken up. The endence went on to

indicate that in the previous 18 months the rate of use of overmains the rate of use of over-draft facilities had ranged between 47 and 54 per cent. Over longer periods the range may well be rather wider, say between 49 and 60 per cent.

have to think twice about the freedom it was able to give its customers to take up their facithat it wished to maintain its overdraft facilities in anything close to their present form, it would also feel obliged to carry

It is not hard to see why such cash base. Charlotte would present This does would necessarily see any great changes in personal overdrait facilities. The personal sector would not appear to pose too rrany problems for the banks. For a start, it is fairly small in the context of total banking business, Equally Important, it

appears to have kepts its rate of facility use fairly stable over recent years, probably in the range of 85-90 per cent.

The real problem would be the large corporate horrower, especially the borrower who regularly switches from one source of funds to another to take advantage of the finest competitive edge in borrowing costs. These horrowers would costs. These borrowers would certainly present a potential headache for the banks and it might well be that a quid proqua for the continuation of existing facilities would have to be some agreement to restrict

A corollary, incidentally, would be that banks would have to keep their lending rates much closer in line

give up trying to control the For individual banks the with movements in market many supply by estimating main implications of all this rates. This would point both to the correct price of money. rates and, perhaps, rather more flexibility in inies. Secondly, to the extent appropriate rate for any individual customer

As far as the need to carry excess reserves goes, the main scorry for the banks is on the excess reserves to cushion it score of profitability. Excess against sudden changes in its reserves will almost certainly cash base.

This does not mean that one would necessarily see any great to regard this not a "cost" that should be barne by the over-draft customer. It is mainly his needs that require the carrying of the excess reserves.

The simplest way of passing on this cost would be by implementing commitment fees far more widely than at present, when overdraft facilities are arranged.

Even if we do not adopt such a rigid form of monetary base control the overdraft system may still require some modilication over time.

frontically, the original form of the Bank of England's paper on hank liquidity appeared to encourage a reversal of the recent trend away from shortterm horrowing into medium-term loans. Subsequent revsions to that paper may well change this,

authorities would go as far 23 requiring the clearers to hold liquidity against undrawn over-

The style of economic policy making in Washington has changed, Frank Vogl reports

# Pulling strings in the White House

Mr Stuart Eisenstat is 37, tall, thin and able. He looks incensely at visitors through if he long more and speaks apidly and fivently. He studied my at Harvard University and

He often tells reporters that he would prefer it if they didn't quote him by name in their articles, but then be is concurred that he should'nt upstage his chief, the President of the United States.

Pormulating economic policy in large industrial countries and ensuring that it is implemented can be an administrative nightmare. Most policy questions : south upon the questions : souch upon the responsibilities of an assortapete scores

Eizenstat, the unsistant to the.
President for domestic affairs
and policy, publing the strings
at the centre is a tough

A new book just published A new 300k just published shows how tough. Presidential Decision-Making—The economic Policy Board. by Mr Roger Porter, may prove to be a use-ful tool when the next United States administration is formed

Even if Mr Carter wins next month he may very well change the structure of his economic policy making system. At present he relies upon a variety of sources for ideas and views on sources for ideas and some-rimes seems to be particularly influenced by whoever manages to see him most often.

Influence in Washington measured by some in terms of geographical proximity to the esident : Mr Eizenstat's office is just along the conridor from Wing of the White House.

Dr Henry Kissinger made sure that he retained a West

Nixon appointed him Secretary of State. The same considera-tions led Mr George Shultz to insist that he, too, had space in the West Wing when he was Treasury Secretary, Mr Shultr's Treasury successors since 1974 have not had White House President Carter has relied

President Carter has relied quite heavily upon advice from a. small, informal, economic policy group, chaired by Mr William Miller, the Treasury Secretary and including Mr Eizenstat. This body has sought to smooth coordination on the economic front between dif-ferent departments. But on key decisions, its views have some-times been far less influential then those suggested on firmly political grounds by Mr Ehenster and the small group In recent years it has seemed

that the lack of central coor-dination and economic policy-planning has all too frequently led to policy changes. Mr led to policy changes. Mr Eizenstat focuses directly on the elections and has seemed three important changes in its budget plans and a further change is almost certain once the elections are over.

Mr Porter suggests in his book that economic policy ran more smoothly in the Ford Administration and he is in a good position to know as for-mer secretary of the Economic Policy Board. This was a formal group created soon after President Ford took office in 1974 which included most cabinet secretaries. The real work was done by a small executive committee.

The chairman and spokesman William Simon, the Secretary of the Treasury, but much power was wielded by Mr L. William Seidman, the board's executive director and the President's

Mr Stuart Eizenstat, the President's assistant for domestic affairs and policy: personal influence in the Oval Office.

the Oval Office.

Mr Seidman kept a low profile and never publicly sought to challenge Mr Simon's position, so winning the latter's respect. Indeed, as Mr Porter notes, none of the President's cabinet officers saw Mr Seidman as a threat.

The difference between the Ford and Carter eras is marked. Mr Seidman acted as a coordinant and tlerk for the Economic Policy Board. His close relationship with Pre-

Assistant for Economic Affairs. sident Ford enabled him to en-He was an old friend of Mr sure that virtually every Ford and had ready access to economic issue went through it. All cabinet officials and senior officers knew that they

had to state their views to the hoard if they wished to carry weight. Mr. Seldman's own influence by in arranging board affairs and then pushing its views upon the President.

In the Carter White House, by contrast, what Mr Porter describes as a state of "adhocracy" often seems to prevail. Mr Eizenstat does not have the same commitment to

Mr Seidman had to Ford's "hourd" and nobody else has heen specifically appointed to fulfil that role. Mr Eizenster's influence is of a far more personal kind, independent of the economic policy around economic policy group.

The power of the board in the Ford era is illustrated by its shilling Dr Henry Rissinger's State Department and win. In 1975 the State Department wanted to push for a tough negotiating session with the Russians under which the Russians would pledge to pro-vide oil to the United States in exchange for American grate. The board decided against the oil strategy and went on to secure a long-term grain sales pact with Moscow.

The United States-USSR grain issue is a good example, treated at length in the book, of how Department of Agriculture had so too did the State Departs ment, and the Treasury. Moreover. American dockers wanted higher pay to handle the grain and this brought the Department of Labour into the battle.

Each department had different priorities and different views and the struggle between them could have been bloody.

Central coordination of economic policy is critical and it is sadly tacking in the Carter White House. President Ford decided to coordinate by com-mittee, though he adopted quite a different approach in foreign affairs by placing all authorist squarely in Dr Kissinger's hands.

Rose vend vend de de la relation de

The higgest problem with President Ford's system was that it concentrated ton much on economic considerations in formulating policy and it did not weigh sufficiently the political problems of implementing decisions and winning broad public support for them. The very opposite could be said of Mr Carrer's approach.

Mr Eizenstat could learn a lot from Mr Porter's book. \* Cambridge University Press,

# Business Diary: Form card for the engineers

SUCH A TINY BRAIN

THAT REMINDS ME-

HANDLING SO MUCH

INFORMATION.

The betting is that Sir Keith Joseph, the Industry Secretary, will be choosing from among a couple of lords and three knights for the person to chair the new chartered body to oversee the engineering pro-lession—assuming that is, that the profession ever makes up its mind on how the new bady should be organized. The final bape is likely to influence the choice of chairman. So far, I hear, the two lords

are front-runners-Lord Caldecotc. Delta Metal's chairman, and Lord Nelson of Strafford, he chairman of the General Electric Company, But a late entrant under close scrutiny is esigned from the chairmanship of the Electricity Council and zoes at the end of the year.

Of the two other knights Sir Henry Chilver, who is Vice hancellor of Cranfield Institute. of Technology and has a clutch If industrial directorships, bas apparently attracted particular partment. At 55 he is the youngest of the contenders. Rut. William Barlow, late of the Post Office chairmanship, although he is a pretty busy man these - Jean Muir and Zandra Rhodes

five are professional engineers with varying degrees of involvement in industry, something which is going to be vital for this chairman. The two iords-and Lord Caldecote looks as if he may have the edge on Lord Nelson in the race—have heavy support from the pro-

and chemicals.

Of course the sort of heavy weight candidate Sir Keith would like to see may well not want the job. That would make a strong director general more important. The word is that this job will go to one of Sir Keith's own civil servants on secondment to the paper are served to the

Western Trust & Savings, the Plymouth-based deposit taking group owned by the Royal Bank of Canada, plans to operate 100 retail branches by 1985. It hopes that by them it will have total assets of around £300m.

Mr Mike Priesland, managing director, said yester-day that the branches would offer full retail financial servofter full retail mancial services, including cheque and deposit accounts, loans and financial advice. It now has 18 branches and some 100,000

Last year it made a profit of £2m, unchanged on the previous year. The backing of the Royal Bank of Canada will provide the capital needed for expansion.

company has spent £250,000 over the past two years on re-search. It found that many people need personal financial services and are dissatisfied with those given by their own The group plens to keep more flexible hours. Its branches will

be open six days a week from 9.15 am to 5.30 pm on weekdays and to 4 pm on Saturday. Mail services are also being offered.

# May & Hassell makes £1m sale

For nearly 11m cash, the May & Hassell group of timber timing business contributed importers has sold two subsidiaries. May and Hassell (Private) and May and Hassell (CA), trading as timber importers in Zimbabwe and Malawi respectively—to ITM Corporation. The money is payable in profit with \$1.38m.

tion. The money is payable in instalments over seven years.
The consideration is based The consideration is based upon the sterling equivalent of the user tangible assets of the two companies at September 30, plus the sterling equivalent of \$150,000 roughly \$100,000. The balance on the

filliance on the inter-company account due from May and Bassell at that date is to be assumed by ITM.

The net profit before tax and intra group interest of May and Hassel (Private) for the year to March 31 was £13.700 and the net tangible assets, excluding an intra-group balance, were £745,000. The pretax profit of May and Hassell (CA) in the year was £56,000 and the net rangible assets were about

Yorkshire Fine to pick up next year

£140,000.

Although it has completed its reorganization, the board at Yorkshire Fine Woollen Spinners does not expect the benefits to show through until 1981. Meanwhile, turnover for the six months to June 30 rose from 22.05m to 22.19m; and a pretax profit of 235.500 was turned into a loss of £83.500. There is no interim against 0.71p gross.

# profit with £1.38m

A better performance from cement operations and the builders' merchanting business builders' merchanting business has helped Aberthaw and Bristol Channel Portland Cement to turn a loss of £217,000 into a prejax profit of £1.38m for the half year to June 30. Turnover want up from £11m to £15.9m. Earnings a share were 28.9p against a less of 5.76p and the dividend was raised from 4.7p to 5p

Change in investment by British Car Auction

In June, the British Car
Auction Group sold its freehold interest in the Plough
Hotel, Nerthampton, for
£215,000 cash and the fixtures
and fittings and stock of the
hotel for £39,000 cash. The value of these assets book value 203,000.

A month later BCA com-pleted the sale of the Red Lion, Somerton, Somerset, for £250,000 cash. The fixtures and fittings and stock of the hotel made £84,000 cash. The book value here was £344,000.

Since then the group has completed the purchase of a freehold garage at Sandhurst,

Camberley, together with the fixtures and fittings for 1300,000 cash and the stocks of oil and petrol for £10,030. It has also completed the purchase of "K S Kasino", Sheerness, for £187,500 in cash.

# Low copper prices affect **RCM** output

Zambia (RCM) is producing around 260,000 tonnes of copper annually against a rotal capacity of 300,000 because of the low copper price, Mr. David Phiri, the managing director, said in London, RCM's future output would depend on the copper price, he said. He declined to predict a price for the next year, but said that after a "snicky" first-half 1981 most producers were hopeful that there would be an improvement in the world's economy and the position of copper.

Metal Marketing of Zambia (MEMACO) is now negotiating copper contracts for the next year and Mr. Phiri hopes for a reasonable price to provide funds for mine development. To ensure future copper supply RCM has to develop new deposits and expand existing ore sits and expand existing ore bodies, he said.

Mr Poiri said the introduction of a high-grade cathode con-tract on the London Metal Ex-

change would assist pricing.

RCM has "the best quality copper in the world which is very much in demand and there is no reason why it should be sold at the same price as lower grade copper". But he saw the process of changing the LME specification taking a long time

**Authorized Units, Insurance & Offshore Funds** 

igh house prices and expensive . moval bills have tended to enjurage house extension schemes. is tempting to a house owner need of more space to think long these lines rather than to ice the upheaval of a change of

This trend is not something cought about solely by modern conomic pressures. Houses have lways tended to grow over the ears and it is surprising how ften an older property shows igns of the process, often quite ell documented.

An interesting example is proided by Friary Court, at Southleet, near Gravesend, Kent. It is he horthern half of a building vich a grade two listing as being of special architectural or

historic interest. The house dates from the second half of the 14th. century and during part of its a main bedroom and shower history was used as a friary.

Additions were made in 1550 and again in 1783. By this time it must have been a substantial property and about 20 years ago it was divided into two. Construction is in flint with part rendered walls, with other parts in brick with a timber frame. The portion being sold includes the former main rooms and the accommodation offered includes three reception rooms and six bedrooms.

Features include mullioned and leaded light windows and oak panelling and window. shutters in many of the rooms. In the garden are some mature trees and a summer house. Offers in the region of £80,000 are being asked through Savills, and Porter and Cobb, of Graves-

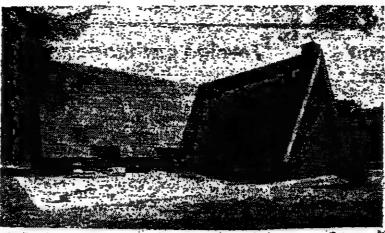

Another instance is provided hy Broxmore Farmhouse, at. Sherfield English, near Romsey, Hampshire. This is basically a Tudor farmhouse extended in about the middle of the last century, 'A more recent restoration has exposed much good timbering, ancient brickwork and inglenook fireplaces.

Present accommodation includes two main reception rooms, room suite, three further bedrooms and another bathroom. A spiral staircase leads to a loft which has potential for two further bedrooms, and downstairs there is a small annexe consisting of a sitting room and a. bathroom,

The price is £98,500 and includes about an acre of garden. Agents are Jackson and Jackson, of Lymington.

Another building with later additions, although these are more difficult to date, is Spinnies, in Clackhams Lane, Jarvis Brook, near Crowborough, Sussex. The property is basically about 200 years old and built of stone half tile hung under a tiled roof, with a later part in brick.

Here, there is a large reception hall notable for an inglenook fireplace complete with a copper canopy and oak bressummer, plus two other reception rooms, and a large kitchen and breakfast room. Upstairs are a bedroom and bathroom suite. three further bedrooms and another bathroom. The garden runs to about one-third of an acre and the property is for sale

Pillar Lodge, Wargrave on Thames, Berkshire, unusual design and great luxury at about £350,000.

at £69,500 through Braxtons, of Crowborough

Changes have also taken place in The Meeting House, at Newton by Frodsham, Cheshire, originally a 17th century, Quaker meeting house. It seems to have been largely demolished in the 18th century but was later built: up again into two cottages.

More recently these were combined into a single house. Even so, the accommodation is modest. consisting of a hall, sitting room, combined kitchen and dining room and three bedrooms. The garden is about one-third of an acre and because of the high site

there are extensive views. The price is £60,000 through Jackson-Stops and Staff, of Chester.

A good deal more accommodation is provided by Old House at Ewhurst, Surrey, which is thought to date at least in part from the 16th century. It centres on a couriyard, one side of which: is an old tithe barn, and another a stone-built later addition.

. The old part of the house is constructed with brick walls in a tiled and part Horsham stone. There are four reception rooms, one of which is provided by the barn and measures over 40ft by too, is a small staff anners, at Laxford, near Wood Upstairs there are five main bed. Suffolk. As torner. It pount three with their own bathrooms, plus a further four -

Gardens, meadows and wood-land ground the house total about 16 acres. The property is for sale at £200,000 through Cubitt and West, of Guildford A further 19 acres of pasture might also be available.

Unusual in design and very much at the top end of the market is Pillar Lodge, at Wargrave on Thames, Berkshire, which is being offered for sale through Knight Frank and Rutley and Turpell and Partners at a price of over £350,000.

The house which was completed about two years ago, is notable for its deep and steeply sloping roof, with the principle rooms rising to the full rouf height. The main reception area is more than 47ft long and nearly 20ft in width.

In all, the accommodation provides three reception froms, a master bedroom and dressing room suite, plus five further bedrooms and another two bathrooms. Other internal features are a large kitchen with a family area and a games room. Gardens and grounds, landscaped and floodlit, run to about 41 acres and include a heated swimming pool and terrace protected by the two wings of the house.

is located in the central part the village behind the light. The property has been modes nized in such a way that it woul provide two self-contained units -- Accommodation includes thre main reception rooms, a study. playroom and utility room, a main suite of bedroom an shower room, five further bear rooms and another bathrood The property is for sale 1. 555,000 through the James Abo Partnership, of Colchester. Different: again in style:

Glebe House, at Muston, ner Bottesford, Nortinghamshire. is a grade two Georgian rector which had associations wit George Crabbe, the puet. The two-storey building dates fro about 1770 and has the spacior. ness of its period. There a three reception rooms, five ma bedrooms, two secondaries and games room.

Outside, there is a good ran of outbuildings containing garaging, stabling and state rooms. Gardens and grounds about 5% acres include a for acre paddock. Offers in t region of £82,500 are bei asked through Strutt and Park of Grantham, Lincolnshire

Peter Corey who plays Tony Hancock in The Lad Himself (BBC 2, 9.25). Mr Corey also wrote the play.

I am all for the provision of platforms for minority groups, but three hours, spread over three successive nights, does seem a disproportionate amount of stage space to devote to the story of a transexual. Not that A Change of Sex (BBC 2, 10.00) isn't well done or reasonably absorbing. It is both these things. More, David Pearson's three documentaries avoid those excesses which might have given them a bias in favour of the grurient. It is just that there is too much of it and sxissors were needed. Touight, the basic situation is established. George Roberts, a disastrous marriage and two children behind him, commits himself to the irreversible coarse of releasing the female trapped inside his male body. This episode, first shown last year, has been slightly amended because it now belongs to a trilogy.

In an imperfect world, the perfect individual is a rarriy worthy of some kind of memoral, especially if he is still alive to enjoy it. Hence This is Your Life. Eamonn Andrews's marritical biographies which begin another season tonight (ITV, 7.00).

Perhaps a question mark after the title might help to give these programmes a greater degree of credibility. But that will never bappen, And, in any case, with a series like this, entertainment is the name of the game, and, to his credit, Mr Andrews has never pretended to be a Boswell. • I am all for the provision of platforms for minority groups,

never pretended to be a Boswell.

O It has become an axiom of show business lore that Tony Handcock, that fine and original comediam, was his own worst enemy. Tonight's play The Lad Himself, written and performed by Peter Corey, shows that there was another enemy: show business itself. It simply demanded too much of the man, and the price he eventually had to pay for his fame was a terrifying one.

Half a century of continual music making is an event that calls for celebration, which is what the BRC Symphony Orchestra does tonight with the opening concert of its anniversary seasor broadcast live from the Royal Festival Hall (Radio 3, 8.00). broadcast live from the Royal Festival Hall (Radio 3, 8.00). We hear no fewer than three works by Prokofiev, presumably out of respect for the nationality of the orchestra's chief conductor. Gennadi Rozhdestvensky (his wife, Victoria Postnikova plays the Piano Concerto No 2). We also hear Tippett's A Child of our Time. Was it included because it restores the international halance?... There is a repeat tonight of the survey of more than 200 years of poets laureate by Christopher Ricks, Professor of English at Cambridge University. An honourable post, or an honorary one? Listen to Tom Sutcliffe's programme on Radio 3, at 7.00 pm.
